NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Add the phrase "EPA Registration No. 334-566" to the label prior to releasing the product for shipment.
3. Revise the statement "The spray orifice must also be located..." to read as follows:

The spray orifice must also be located at least 3 ft (1 m) from solvent-sensitive surfaces and 12 ft (4 m) from surfaces which food may contact (including food processing surfaces, appliances, equipment, countertops, etc.).

4. Submit one (1) copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

more after it ends. If around-the-clock protection is unnecessary, start and stop spraying 1 hour in advance of start and end of period during which control is desired.

With continuous treatment, within 24 hours the area should be relatively free of small flying insects. With continued use, their annoyance should be greatly diminished. Conditions such as air change rate, shape of the area treated, humidity, and temperature affect insect activity and control. For persistent infestations, consult a professional pest control service. Replace insecticide container when it is empty and quits spraying.

STORAGE AND DISPOSAL

✓ **GENERAL:** Do not contaminate other materials (including water/food/feed) during transport, use, storage, and disposal. If damaged or leaking, soak up and wrap any waste, then dispose of as below.

STORAGE: Keep in a cool, dry, locked area inaccessible to children and away from sources of heat and ignition (including flames, sparks, hot surfaces, and sunlight). Containers heated above 130°F (54°C) may burst.

✓ **DISPOSAL:** Refasten protective cap on container, securely wrap in several layers of newspaper, and discard in trash. Do not incinerate or puncture.
