

FEATURES, CLAIMS AND USES

- For Home, Industrial, Institutional, Commercial, and Residential Use.
- Residual and Contact Insecticide. Lasts for weeks.
- Kills Cockroaches, Ants, Spiders, Ticks, Fleas, and more.
- Flushing Action and Fast Knockdown.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Keep out of reach of children. Avoid breathing spray mist. Avoid skin and eye contact. Wash thoroughly after handling and before eating or smoking. Do not allow children or pets to contact treated surfaces until spray has dried.

Do not spray air in rooms or use on plants. Apply as a surface spray only. Do not allow spray to contact food, feedstuffs or water supplies. Do not use in food serving areas while facility is in operation or food is exposed. Thoroughly wash dishes and food handling utensils contaminated with this product.

Remove pets and cover fish bowls before spraying.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To operate hold can upright, direct orifice toward the surface to be treated and press the actuator button. Do not use as a space spray.

SHAKE WELL BEFORE USING.

TO KILL Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Pillbugs, Silverfish and Spiders; thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, under carpets, along baseboards and door sills and frames, behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

EPA Est. No. 334-IL-2

NET WT 12 OZ (340 g)

NET WT 15 OZ (425 g)

ACCEPTED
with COMMENTS
in EPA Letter Dated

MAR - 3 1994

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

334-568

DIRECTIONS FOR USE

(continued from left panel)

TO KILL Fleas and Brown Dog Ticks, Indoors: Clean premises thoroughly before treatment. Spray an inconspicuous area of furniture, carpet or flooring to check for possible staining or discoloration. Spray the entire floor and carpet area. Special attention should be given to cracks, crevices and under carpets and rug edges. Also treat animal sleeping quarters, closets, upholstered furniture (with particular attention to seams), under sofas and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding. Do not use in nurseries or any area where infants may sleep. **DO NOT TREAT ANIMALS WITH THIS FORMULATION.** To avoid reinestation, pets should be treated simultaneously with an E.P.A. registered product labeled for use on animals. Application must be repeated as necessary. Humans and pets must avoid contact with treated surfaces (rugs, upholstered furniture, etc.) until they are dry.

TO CONTROL: Flies, Gnats, Hornets, Mosquitoes, Small Flying Moths, Wasps and Yellow Jackets; use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and Mosquitoes coming to rest on treated surfaces will be killed. Repeat when effectiveness diminishes.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

Application within food handling establishments (places other than private residences in which food is held, processed, prepared or served) including, but not limited to, areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing food, edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (do not use while facility is in operation or food is exposed): Use as a crack and crevice treatment in and around both food and non-food areas to control ants, cockroaches, crickets, silverfish, spiders and waterbugs.

Apply in small amounts directly into cracks and crevices, in points between different elements of construction, between equipment and floor, openings leading to voids and hollow spaces in walls, equipment legs and bases. Do not use this product in conduits, motor housings, junctions or switch boxes because of possible shock hazard. If there is a need to treat such areas, use only oil-based sprays. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces.

Application Within Food Serving Areas (Facilities where foods are served such as dining rooms but excluding areas where foods may be prepared or held): Apply as a spot treatment to selective surfaces such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed).

STORAGE & DISPOSAL

STORAGE: Store in original container in a cool dry place inaccessible to children and pets. Do not transport or store below 32°F.

DISPOSAL: Wrap container in several layers of newspaper and dispose of in trash. Do not puncture or incinerate.

& Roach Crawling
Insect Killer

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Hysan Corporation
3000 West 139th Street
Blue Island, Illinois 60406

Notes: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 334-568."

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

MAR - 3 1994

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 334-568

DIRECTIONS FOR USE

(continued from left panel)

TO KILL Fleas and Brown Dog Ticks, Insects: Clean premises thoroughly before treatment. Spray an inconspicuous area of furniture, carpet or flooring to check for possible staining or discoloration. Spray the entire floor and carpet area. Special attention should be given to cracks, crevices and under carpets and rug edges. Also treat animal sleeping quarters, closets, upholstered furniture (with particular attention to seats), under tables and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding. Do not use in nurseries or any area where infants may sleep. **DO NOT TREAT ANIMALS WITH THIS FORMULATION.** To avoid reinfestation, pets should be treated simultaneously with an E.P.A. registered product labeled for use on animals. Application must be repeated as necessary. Humans and pets must avoid contact with treated surfaces (rugs, upholstered furniture, etc.) until they are dry.

TO CONTROL: Flies, Gnats, Hornets, Mosquitoes, Small Flying Moths, Wasps and Yellow Jackets: use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized nesting areas, such as under eaves, porches, porches and in garages where these insects may aggregate. Flies and Mosquitoes coming to rest on treated surfaces will be killed. Repeat when effectiveness decreases.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

Application within food handling establishments (places other than private residences in which food is held, processed, prepared or served) including, but not limited to, areas for receiving, storage, packing (cleaning, sorting, wrapping, boxing), preparing food, edible waste storage, and enclosed processing systems (mills, driers, edible oils, syrups) and serving areas (do not use while facility is in operation or food is exposed); Use as a crack and crevice treatment in and around both food and non-food areas to control ants, cockroaches, crickets, silverfish, spiders and waterbugs.

Apply in small amounts directly into cracks and crevices, in joints between different elements of construction, between equipment and floor, openings leading to voids and hollow spaces in walls, equipment legs and bases. Do not use the product on electrical, motor housings, junctions or switch boxes because of possible shock hazard. If there is a need to treat such areas, use only aerosol sprays. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces.

Application Within Food Serving Areas (Facilities where foods are served such as dining rooms but excluding areas where foods may be prepared or held): Apply as a spot treatment to selective surfaces such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed).

STORAGE & DISPOSAL

STORAGE: Store in original container in a cool dry place inaccessible to children and pets. Do not transport or store below 32°F.
DISPOSAL: Wrap container in several layers of newspaper and dispose of in trash. Do not puncture or incinerate.
