LESTER SANITIZ DISINFECTANT AND GERMACIDE
FILE NO. 337-R
APRIL 5, 1968

Left Panel

Dilute with water. Do not mix with soap.
Before sanitizing anything - clean with a
good cleansing agent.

FOR USE IN DAIRIES AND BOTTLING PLANTS
Mix 1 ounce SANITIZ with each 4 gallons
of water. Follow application with a
potable water rinse.

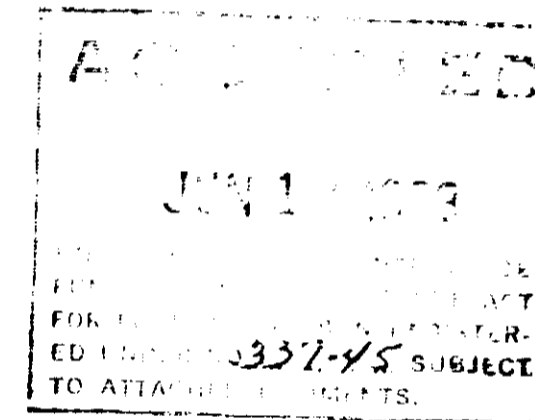

AS A GLASS AND DISH SANITIZER
Mix 1 ounce SANITIZ in 4 gallons final
rinse water. Dip for 30 seconds.
Follow with potable water rinse.

FOR GENERAL DISINFECTION & DEODORIZATION
Mix 1 ounce SANITIZ in one gallon of water.
Spray, flush or mop on to contaminated area.
Rinse with potable water.

FOR ALGAE CONTROL IN SWIMMING POOLS

FOR REMOVING EXISTING ALGAE
Drain pool. Mix 1 ounce SANITIZ
in 4 gallons water and mop on pool
walls and floor. Allow SANITIZ
solution to stand on walls and floors
for 5 minutes. Flush pool walls and
floor and then refill. Repeat when necessary.

TO CONTROL ALGAE GROWTH IN SWIMMING POOL
After filling the pool, an initial dose of
1 gallon SANITIZ per 50,000 gallons of water
should be made and repeated every 5-7 days.
SANITIZ does not replace the need for chlorine
use in the pool and should not be used for
bacterial control.
