

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Microbiocide 25 is used in industrial and/or commercial recirculating cooling tower systems and industrial air-washing systems to control microbiological slime. Prior to the use of Microbiocide 25 in industrial and/or commercial recirculating cooling tower systems, systems should be cleaned to remove alkal growth, microbiological slime, and other deposits. Then make an initial slug addition of 4.5 to 6.8 fl. oz. of Microbiocide 25 per 1000 gal. of water to provide 40 to 60 ppm of Microbiocide 25, based on total weight of water in the system. Repeat initial dosage until control is evident. Make subsequent slug addition of 2.3 to 6.8 fl. oz. of Microbiocide 25 per 1000 gal. of water (20 to 60 ppm Microbiocide 25) every 2 to 3 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of recirculating cooling tower systems.

Microbiocide 25 is used in industrial air-washing systems which maintain effective mist-eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 10.6 to 13.6 fl. oz. of Microbiocide 25 per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 7.9 to 13.6 fl. oz. of Microbiocide 25 per 1000 gallons of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and severity of the bacterial problem. Slug additions may be made in the sump or the water collection trays of the airwash system.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides, or buried in a safe place away from water supplies.

CONTAINER DISPOSAL:

METAL: Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in an approved landfill or bury in a safe place. Containers over 30 gallons should be resealed before offering for reconditioning.

PLASTIC: Containers under 30 gallons must not be reused but should be triple rinsed and disposed of in an incinerator or landfill approved for pesticide containers or buried in a safe place. Containers over 30 gallons are to be resealed and offered for reconditioning or triple rinsed for equivalent and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place.

GENERAL: Follow Federal, State, or Local disposal authorities for approved alternative procedures.

Microbicide 25

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 25.0 %

INERT INGREDIENTS 75.0 %

This product contains 2.3 lb. of active ingredient per gallon and weighs 9.25 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by striking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonful (10 mL) of specac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonoily demulcent. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, this product is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this registration/reregistration is attached herewith.

Registration is in no way to be construed as an approval or disapproval of the product by the Agency. In order to protect health and the environment, the Administrator, on his own motion or upon petition, may cancel the registration of a pesticide in accordance with the Act. The acceptance of a registration of a product under this Act is not to be construed as giving the registrant the right to use or to its use if it has been covered by others.

This product is conditionally registered under EPA Reg. No. 237-711.

1. Submit at your site all data required for registration/reregistration of your product under EPA Reg. No. 237-711. For new products, all conditions of Order 237-711 must be met.

2. Add the phrase "EPA Reg. No. 237-711" to your label. For more information, see Order 237-711.

3. Submit the following information to the Agency: a copy of the label for the product, for which you are applying for registration/reregistration, and a copy of the label for the product, for which you are applying for registration/reregistration.

4. If you are applying for registration/reregistration of a product, you must submit a copy of the label for the product, for which you are applying for registration/reregistration, and a copy of the label for the product, for which you are applying for registration/reregistration.
