(back panel)

**Jomax® Kills Mildew Fast.**

**Use for outdoor cleaning or pre-paint mildew removal.** Jomax is a patented concentrate containing a mildewcide, ChloRelease bleach activator and detergents. Jomax kills and removes mold and mildew on most exterior nonporous surfaces such as **siding and trim of all types including vinyl, stained or painted decks and fences, stucco, brick and painted concrete or cement block, roofing, vinyl car tops, boat covers, sails, concrete walkways and walls, ceramic tile, grout, and painted drywall.** This product is not recommended for use indoors.

**MIXING INSTRUCTIONS:** Shake well before using. Follow directions carefully. For each 5 gallons, mix 3 quarts household bleach and 4 gallons water first, then add 1 quart Jomax. Mix well.

**HOW TO USE:** Test a small area before using. Apply with a tank-type garden sprayer, airless or chemical sprayer. Spray infected surfaces liberally. Wait 5 minutes and rinse well. Heavy mildew stains may need a second application. Textured surfaces may require light scrubbing. Spray sensitive plants with water before and after Jomax application. One gallon of Jomax makes 20 gallons which cleans and treats approximately 4,000 sq.ft. Clean sprayer with water and baking soda or soap.

**IMPORTANT:** Mixture life is 3 hours, use immediately after mixing. Always follow manufacturer's precautions on bleach. Do not allow solution to contact fabrics. Will not harm vegetation or sound painted surfaces when used as directed.
