

**WARNING**

VAPONA Insecticide 25-E Concentrate is poisonous if swallowed, inhaled or absorbed thru skin or eyes. Do not get on skin or eyes. Do not breathe fumes. Avoid prolonged exposure to fumes. In case of contact, wash immediately with soap and water. Wash hands, arms and face thoroughly with soap and water after handling, and before eating or smoking. Wear natural rubber gloves, protective clothing and goggles when handling the concentrate. Keep all unprotected humans out of operational area. Wear a mask or respirator of a type passed by the U.S. Dept. of Agriculture for Vapona (insecticide) protection. Wash all contaminated clothing with soap and hot water before reuse.

**ANTIDOTE AND FIRST AID TREATMENT**

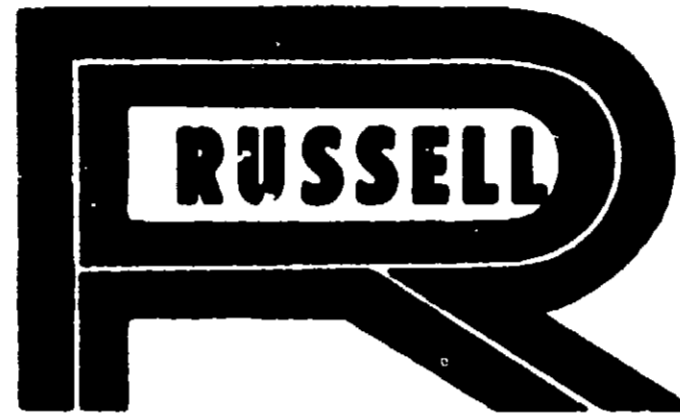

Atropine is the emergency antidote for Vapona (DDVP) Insecticide poisoning. Consult your Physician about obtaining an adequate supply of 1/100 grain Atropine tablets for emergency use. CALL A PHYSICIAN IMMEDIATELY IN ALL CASES OF SUSPECTED POISONING.

**INTERNAL:** If the material has been swallowed, induce vomiting immediately.

Give a tablespoon of salt in a glass of water and repeat until vomit fluid is clear. Have victim lie down and keep quiet. Never give anything by mouth to an unconscious person.

**EXTERNAL:** If the material has been spilled on the skin, immediately remove patient from the vicinity of the Insecticide, remove all contaminated clothing, and wash skin with soap and running water. If the material gets into the eyes, wash immediately with running water for at least 10 minutes.

**NON-WARRANTY:** Seller makes no warranty expressed or implied, regarding this product except the composition as set forth in the ingredient statement herein. Buyer and user assumes all risks of possession, handling or use whether or not in accordance with any directions contained herein.

CONTENTS: GALLON

**GENERAL DIRECTIONS**

VAPONA Insecticide 25-E Emulsifiable Concentrate (2 lb. per gal.) is a specially prepared concentrate for use in conventional application equipment. Dilute 2.5 oz. of Concentrate with water to make a gallon of 0.5% DDVP Emulsion.

**DIRECTIONS** to control: Roaches, Ants, Silverfish, Spiders. (To be applied by PEST CONTROL OPERATORS ONLY.) Apply with low pressure sprayer to localized areas insects may infest. Treat infested areas around baseboards, cracks, walls, door and window frames, and localized areas of floors. Do not apply to areas which will be contacted frequently by children and do not allow them in treated areas until surfaces are dry.

**FOGGING:** (To be applied by, or under the directions of trained personnel.) Dairy Barns, Stables, Feeding Pens, Outdoor Areas—Mix 2 qts. in 15 gals. fuel oil for fogging (one gallon of solution will fog 64,000 cubic ft.), or 2 qts. in 50 gallons water for mist blowers. Do not treat areas where food or feed crops are growing. Controls house flies, mosquitoes and gnats present at time of application only. Do NOT contaminate milk, or milking utensils, nor use in areas where animals have received direct application within 8 hours.

**PRECAUTIONS FOR USING**

VAPONA Insecticide 25-E Concentrate and the diluted Emulsion are poisonous. Therefore, precaution must be observed when handling them. See antidote and warnings below.

Store the Concentrate in a safe place. Children or animals must not be able to reach or handle the Concentrate or diluted Emulsion. It is recommended that only the amount of diluted Emulsion be prepared from the Concentrate that will be used immediately.

Mix the Concentrate into water outdoors or in a well ventilated room. Wash off the outside of the bottle of Concentrate in running water before storing away.

Do not contaminate water, food, containers, or cooking utensils. Do not treat animals.
