

GENERAL INFORMATION

Du Pont "Krenite" Bush Control is a water-soluble liquid herbicide for use in brush control. It is applied as a spray or as a soil drench. It is effective on a wide range of brush and weeds, including those growing in streams, floodplains, ponds, and other areas where water is present.

"Krenite" is a selective herbicide. It kills brush and weeds without harming desirable plants. It is safe for use in areas where desirable plants are growing. It is also safe for use in areas where water is present.

Apply "Krenite" as a spray or as a soil drench. Follow the directions on the label for application. Do not use "Krenite" in areas where it is not recommended.
