SINBAR® WEED KILLER
WEED CONTROL IN CANEBERRIES
(BLACKBERRIES, BOYSENBERRIES, DEWBERRIES,
LOGANBERRIES, RASPBERRIES AND YOUNGBERRIES)

Du Pont "Sinbar" Weed Killer is recommended for use in caneberries (blackberries, boysenberries, dewberries, loganberries, raspberries and youngberries) for control of clover, seedling dandelion, dog fennel, fiddleneck, groundsel, knotweed, lam. quarters, pigweed, plantain, prickly lettuce, annual bluegrass, annual ryegrass, barnyardgrass, crabgrass and quackgrass.

HOW TO USE

Make a single application of 1 to 2 pounds in a minimum of 20 gallons of water per acre. Use the higher rate on fine-textured soils (clays) or soils high in organic matter. Apply to the ground beneath the canes in the fall or early spring before fruitset and before weeds emerge or during the early stage of weed growth. Best results are obtained when the herbicide is moved by rainfall or sprinkler irrigation into the upper layer of soil within two (2) weeks after application.

Apply with a tractor-mounted, fixed-boom sprayer, properly calibrated to a constant speed and rate of delivery. Do not overlap or overapply, as crop injury may result.

Do not use on gravelly soils nor on soils of less than 1% organic matter, as crop injury may result. Do not spray foliage nor use on eroded areas where subsoil or roots are exposed, nor apply to plants that are diseased or lacking in vigor, as injury to canes may result. Use only where canes have been established in the production field for at least 1 year. Treated areas may be planted to mint, alfalfa, blueberries, apples, peaches or strawberries one year after last treatment. Do not replant to other crops within 2 years of last application.

Note: Do not apply within 70 days before harvest.

IMPORTANT

BEFORE USING "SINBAR", READ AND CAREFULLY OBSERVE THE CAUTIONARY STATEMENTS AND ALL OTHER INFORMATION ON THE PRODUCT LABEL.

This bulletin contains new or supplemental instructions for use of this product which may not appear on package label. Follow the instructions carefully.
