LANNATE® INSECTICIDE
FOR USE ON PEARS
IN THE NORTHEAST

DIRECTIONS FOR USE

Du Pont Lannate® Insecticide is recommended for control of obliquebanded leafroller and green fruitworm on pears in the Northeast.

HOW TO USE

Apply "Lannate" by ground at the rate of 1/2 lb/100 gals. Use up to 400 gals/acre. Begin applications after petal fall, and when insects appear in damaging numbers. Do not make more than one application per season. Do not apply within 7 days of harvest. Do not graze livestock in treated orchards for 10 days following application.

IMPORTANT

BEFORE USING "LANNATE", READ AND CAREFULLY OBSERVE THE CAUTIONARY STATEMENTS AND ALL OTHER INFORMATION APPEARING ON THE PRODUCT LABEL.

This bulletin contains new or supplemental instructions for use of this product which may not appear on package label. Follow the instructions carefully.
