Ms. Diane M. Stanley
E.I. du Pont de Nemours & Company, Inc.
Agricultural Products Department
Walker's Mill Building 6-174
Barley Mill Plaza
Wilmington, DE 19880-0038

Dear Ms. Stanley:

Subject: Addition of Ornamentals
DuPont Lannate® L Insecticide
EPA Registration No. 352-370
Your Submission Dated April 3, 1989

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Dennis H. Edwards, Jr.
Product Manager (12)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

SUPPLEMENTAL LABELING
EPA REG. NO. 352-370 "LANNATE" L

"LANNATE" L INSECTICIDE
FOR CONTROL OF INSECTS ON FIELD-GROWN ORNAMENTALS

DIRECTIONS FOR USE

It is a violation of federal law to use this product
in a manner inconsistent with its labeling.

Du Pont "Lannate" L Insecticide is recommended for use on certain
commercial and farm plantings (not home plantings) of ornamentals. (See
attached list.)

INSECTS CONTROLLED

- | | |
|-----------------|-------------------|
| - Aphids | - Flea Beetles |
| - Armyworm | - Leafhoppers |
| - Beet Armyworm | - Leafrollers |
| - Black Cutworm | - Loopers |
| - Corn Earworm | - Thrips |
| - Fall Armyworm | - Tobacco Budworm |

HOW TO USE

Apply 1 to 2 pints "Lannate" L per 100 gallons of water. Spray plants
thoroughly to runoff with ground equipment. Use conventional
tractor-mounted hydraulic sprayers with insecticide spray nozzles.

When mixing spray, fill spray tank 1/4 to 1/2 full of water. Add
"Lannate" L directly to spray tank and mix thoroughly, using mechanical or
hydraulic means.

Apply when insects first appear and continue at weekly intervals or as
needed. Do not handle treated plants for 24 hours after "Lannate" L
application.

Phytotoxicity

Since varieties of ornamentals are numerous, continually changing, and may
respond differently to "Lannate" L, test "Lannate" L on a small scale
before proceeding to large-scale application.

Greenhouses

For use in greenhouses, refer to state registrations.

ACCEPTED
with COMMENTS
in EPA Letter Dated

MAY 15 1988

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

352-370

This labeling must be in the possession of the user at the time of pesticide application.

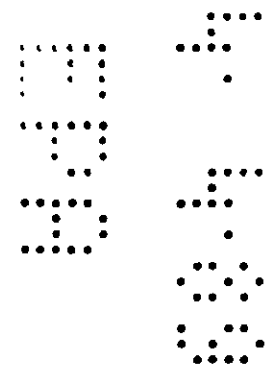

Do not apply this product through any type of irrigation system.

This bulletin contains new or supplemental instructions for use of this product which may not appear on package label. Follow the instructions carefully.

E. I. du Pont de Nemours and Company
