LEXONE® WEED KILLER  
SOYBEANS  
PREEMERGENCE OVERLAY TREATMENT

SUPPLEMENTAL LABELING  
EPA REG. NO. 352-375

LEXONE® WEED KILLER PLUS "LASSO" OR "DUAL" OR "PROWL" OR "BASALIN" TANK MIX PREPLANT INCORPORATED PLUS LEXONE® PREEMERGENCE OVERLAY FOR WEED CONTROL IN SOYBEANS

ACCEPTED

AUG 16 1983

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 352-375

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Du Pont Lexone® Weed Killer is recommended for use as a tank mix with "Lasso"<sup>1/</sup> or "Dual"<sup>2/</sup> or "Prowl"<sup>3/</sup> or "Basalin"<sup>4/</sup> applied preplant incorporated plus Lexone® as a preemergence overlay treatment for weed control in soybeans. Treatment controls annual broadleaved weeds and grasses as shown on package labels.

### HOW TO USE

Before planting, apply the tank mixture to prepared soil surface; promptly incorporate into soil according to directions on package labels. After planting, apply Lexone® as a surface applied overlay treatment prior to crop emergence. Do not plant seed more than 2" deep; do not use on alkaline soils with pH 7.5 or higher.
