

Note: Be certain the following conditions are met before using Lannate LV as a low-volume aerial spray:

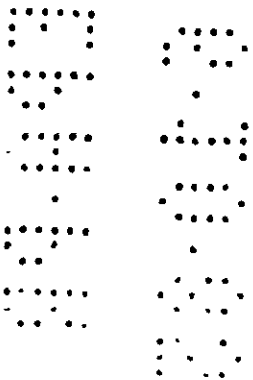

- o Equipment is capable of delivering small spray droplets to insure thorough coverage.
- o Equipment is adjusted to distribute spray uniformly over the spray swath.
- o Wind conditions and other factors such as temperature and humidity are such that the spray is delivered to the target area.
- o Local regulations do not prohibit low-volume aerial sprays.

IMPORTANT

BEFORE USING LANNATE LV, READ AND CAREFULLY OBSERVE THE CAUTIONARY STATEMENTS AND ALL OTHER INFORMATION APPEARING ON THE PRODUCT LABEL.

This bulletin contains new or supplemental instructions for use of this product which may not appear on the package label. Follow the instructions carefully.
