

CAUTION! MAY IRRITATE EYES, NOSE, THROAT, AND SKIN. MAY BE HARMFUL IF INHALED OR SWALLOWED.

Avoid breathing dust or spray mist. Avoid contact with skin, eyes, and clothing. Keep away from fire or sparks.

Wear protective clothing including long pants, long sleeve shirt, gloves, hat and boots during mixing and loading operations.

First Aid: In case of contact, flush skin or eyes with plenty of water for eyes, get medical attention

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

IMPORTANT—Never allow "Maneb 80 Fungicide" to become wet during storage. This may lead to certain chemical changes which will reduce the effectiveness of "Maneb 80 Fungicide" as a fungicide and create vapors which may be flammable. Keep container closed when not in use.

Du Pont warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on each label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Du Pont. In no case shall Du Pont be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the Buyer. **DU PONT MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.**

DIRECTIONS FOR USE

If a variety of the Federal Law on the product has been registered with the state, Maneb 80 Fungicide is registered for use in that state. Where no such registration is shown, Maneb 80 Fungicide is registered for use in all states where the use of this product is permitted.

SPRAYS: Unless otherwise stated use Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

DUSTS: Maneb 80 Fungicide may be used as a dust. Apply at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a dust is to be made in a tank, use 100 to 200 gallons of water per acre.

ALMONDS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

TOMATOES: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

POTATOES: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

APPLES: Scatter Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

CABBAGE: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

CELERY: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

CARROTS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

WATERMELONS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

CUCUMBERS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

CANTALOUPE: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

LETTUCE - ENDIVE: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

LIMA BEANS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

ONIONS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

SPINACH: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

PEACHES - NECTARINES: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

APRICOTS: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

GRAPES: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

ROSES: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

SEED TREATMENT - WHEAT, BARLEY, RYE, FLAX: Scatter Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

LABEL TREATED SEED: Apply Maneb 80 Fungicide at a rate of 1.5 to 2.0 lbs per acre in sufficient water to provide thorough coverage usually 20 to 100 gallons per acre application and 5 to 10 gals. for aerial applications. If a spray is to be made in a tank, use 100 to 200 gallons of water per acre.

STORAGE AND DISPOSAL

PESTICIDE DISPOSAL: Maneb 80 Fungicide may be disposed of in a municipal landfill or other suitable disposal site. Do not dispose of Maneb 80 Fungicide in waterways, streams, or other bodies of water.

CONTAINER DISPOSAL: Containers of Maneb 80 Fungicide should be disposed of in a municipal landfill or other suitable disposal site. Do not dispose of Maneb 80 Fungicide containers in waterways, streams, or other bodies of water.
