MANEB 80 FUNGICIDE

ACTIVE INGREDIENT:
 Maneb (Manganese ethylenebisdithiocarbamate) 80.0%
 (Manganese equivalent as metallic 16.5%)
INERT INGREDIENTS 20.0%

GENERAL INFORMATION: "Maneb 80 Fungicide" may be used as a spray or dust for the control of many important plant diseases. "Maneb 80 Fungicide" has good adhesive properties on plants, high fungicidal efficiency and is easy to use. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

"Maneb 80 Fungicide" may be used undiluted for treatment of certain crop seeds.

Keep out of reach of children
**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS
 AND DOMESTIC ANIMALS**

CAUTION! MAY IRRITATE EYES, NOSE, THROAT AND SKIN. MAY BE HARMFUL IF INHALED OR SWALLOWED.
 Avoid breathing dust or spray mist. Avoid contact with skin, eyes and clothing. Keep away from fire or sparks.
 Wear protective clothing including long pants, long sleeve shirt, gloves, hat and boots during mixing and loading operations.
 First Aid: If inhaled, get fresh air. If on skin, wash with plenty of water. If eyes get mist, flush with water.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic life. Do not apply where runoff may occur. Do not apply to water bodies. Do not apply to areas where it may be washed into water bodies. Do not apply to areas where it may be washed into water bodies. Do not apply to areas where it may be washed into water bodies.

IMPORTANT—Never allow "Maneb 80 Fungicide" to become wet during storage. This may lead to certain chemical changes which will reduce the effectiveness of "Maneb 80 Fungicide" as a fungicide and create vapors which may be flammable. Keep container closed when not in use.

NOTICE OF WARRANTY

The manufacturer warrants that the product is free from defects in material and workmanship under normal use and conditions. The manufacturer does not warrant the product for any specific purpose or for any specific results. The manufacturer makes no warranty of merchantability for a particular purpose nor any other express or implied warranty as stated above.

DIRECTIONS FOR USE

Maneb 80 Fungicide is a fungicide. It is used to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

SPRAYS*—Unless otherwise stated use Maneb 80 Fungicide at a rate of 1 lb. per acre in sufficient water to provide thorough coverage, usually 20 to 100 gals. for ground application and 5 to 10 gals. for aerial application (10 to 15 gals. for tree crops).

DUSTS—Maneb 80 Fungicide may be used as a dust for the control of many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

ALMONDS—Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

TOMATOES: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

POTATOES: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

APPLES: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

CABBAGE—Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

CELERY—Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

CARROTS. Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

WATERMELONS: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

CANTALOUPE & SQUASH: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

LETTUCE & ENDIVE: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

LIMA BEANS: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

ONIONS: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

SPINACH: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

PEACHES & NECTARINES: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

APRICOTS—Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

GRAPES—Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

ROSES: Apply Maneb 80 Fungicide as a spray or dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

SEED TREATMENT — WHEAT, BARLEY, RYE, FLAX—Apply Maneb 80 Fungicide as a dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.

LABEL TREATED SEED—Apply Maneb 80 Fungicide as a dust to control many important plant diseases. It is particularly effective against many of the fungus diseases of certain vegetable, fruit and ornamental crops.
