DUPONT KROVAR® II DF HERBICIDE
FOR WEED CONTROL IN
CITRUS IN TEXAS

Directions for Use

It is a violation of federal law to use this product
in a manner inconsistent with its labeling

DuPont "Krovar" II DF Herbicide is recommended for control of weeds in citrus
in Texas.

How To Use

Trees Established One to Four Years

Apply 3 to 6 lbs. "Krovar" II DF per acre; for details on timing, equipment,
spray volume and other use directions, refer to product label. Use the lower
rate for 1 to 2 year old trees and the higher rate for trees more than 2
years old. A second application may be made if needed, but do not apply more
than 8 lbs. "Krovar" II DF per acre per year as injury to the trees may
result.

Tank Mixtures

"Krovar" II DF is recommended for use on citrus for weed control in tank
mixtures with paraquat. For rates of the individual products, refer to the
respective product label. Do not apply tank mixture to foliage of green wood
as injury may result.
