VENDEX® 50 WP MITICIDE
EPA REG. NO. 352-480

This page contains new or supplemental instructions for use of this product which may not appear on the package label. Follow the instructions carefully.

DIRECTIONS FOR USE

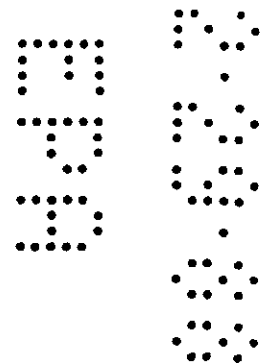

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Refer to package label for spray mixing directions and general use information.

Crop	Mites Controlled	For Concentrated Spray Vendex 50 ^A		Water Soluble		Remarks
		Pounds per Acre	Water Soluble Bags per Acre	Oz. per 100 Gallon	Bags per 400 Gallon	
Strawberries	Two-spotted spider	1.5 to 3	1.5 ³ to 3	12 to 24	3 to 6	1) Apply in 150-250 gal. per acre. 2) Apply when mites first appear. Repeat as necessary to maintain control. Do not exceed 8 lb. of AI per acre per season. 3) Do not apply within 1 day of harvest. 4) Good coverage is essential to good mite control. Adjust spray volume and nozzle placement to assure coverage of top and underside of leaves.

² For concentrated sprays - adjust the dosage to apply an amount not exceeding that used in a dilute spray.

³ Fractions are used here for the purpose of conversion only. Do not use partial bags.
