Ms. Marie M. Chubb  
E.I. DuPont de Nemours & Company  
P.O. Box 80038  
Wilmington, Delaware 19880-0038

Subject: Section 3 Labeling to Incorporate  
Section 24(c) Sites (Raspberries)  
DuPont Vendex 50WP Miticide  
EPA Registration Number 352-480  
Your Amendment Application Dated November 11, 1996

Dear Ms. Chubb:

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), sec. 3(c)(7)(A), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

This is supplemental, Section 3 labeling that incorporates a use included on existing Section 24(c) labeling (two-spotted spider mite control on raspberries, black and red, in Oregon, OR-880005, and Washington, WA-880009), and limits use to the states of Oregon and Washington.

293

You have submitted data to support a reduction in the pre-harvest interval from seven to three days. We have completed our review of the study and have determined that it supports the proposed pre-harvest interval of three days. A copy of the reviewer's report is enclosed for your information.

A stamped copy of the label is also enclosed.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.  
Product Manager (19)  
Insecticide-Rodenticide Branch  
Registration Division (7505C)

**SUPPLEMENTAL LABELING**

**VENDEX® 50WP MITICIDE  
RASPBERRIES (BLACK, RED)  
STATES OF  
OREGON AND WASHINGTON**

**VENDEX® 50WP MITICIDE**

(EPA Reg. No. 352 - 480)

**FOR USE ON RASPBERRIES IN THE STATES OF OREGON AND WASHINGTON**

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

CROP	MITES CONTROLLED	LB/ACRE*	MINIMUM MAXIMUM GAL/ACRE	PREHARVEST INTERVAL (DAYS)
Raspberries (Black, Red)	Two-spotted Spider	2	Max. 200	3
* Apply when mites first appear. * Make only 2 applications per year. * Do not apply in less than a 21-day interval.				

\* One pound of product is equal to one soluble packet of product.

Mix the required amount of DuPont VENDEX 50 WP Miticide in the appropriate volume of water to provide the dosage rates specified in this label. Agitation is required during mixing and spraying.

VENDEX 50 WP is a contact miticide in its mode of action; therefore, thorough coverage of all leaf and fruit surfaces is essential.

Do not apply this product through any type of irrigation system.

**ACCEPTED  
with COMMENTS  
in EPA Letter Dated**

**FEB 11 1997**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

352-480

**IMPORTANT**

**BEFORE USING "VENDEX" 50WP, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABEL.**

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label. Follow the instructions carefully.

This label must be in the possession of the user at the time of pesticide application.
