

Dofa

For aerial applications, use nozzle types and arrangements that will provide optimum spray distribution and maximum coverage at 5 to 10 gallons per acre.

#### RESTRICTIONS

DuPont cannot warrant the safety of this treatment to seeds saved from previous years production (bin run seed).

Refer to the "Classic" label and "Pinnacle" label for specific use instructions, limitations, precautions, and rotational crop intervals. The most restrictive provision on either label will apply.

Applications of this treatment to soybean varieties not designated as "STS" may result in severe crop injury and yield loss.

#### IMPORTANT

**BEFORE USING "CLASSIC" HERBICIDE AND "PINNACLE" HERBICIDE READ AND CAREFULLY OBSERVE THE CAUTIONARY STATEMENTS AND ALL OTHER INFORMATION APPEARING ON THE PRODUCT LABELS.**

This bulletin contains new or supplemental use for these products which may not appear on the package labels. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.

#### NOTICE TO BUYER

Purchase of these materials do not confer any rights under patents of countries outside of the United States. Use of this quantity of purchased "Classic" Herbicide or "Pinnacle" Herbicide is permitted under Claim 24 of U.S. Patent 5,084,082.

**SUPPLEMENTAL LABELING**

**ASSURE® II HERBICIDE  
TANK MIXED WITH CLASSIC®,  
PINNACLE® OR CONCERT® SP  
HERBICIDES FOR CONTROL OF  
CERTAIN GRASSES IN SOYBEANS**

**ASSURE® II HERBICIDE**

EPA Reg. No. 352-541

**REDUCED RATES IN A TANK MIX WITH "CLASSIC" "PINNACLE" OR "CONCERT" SP HERBICIDES  
FOR CONTROL OF CERTAIN GRASSES IN SOYBEANS**

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Du Pont "Assure" II Herbicide is recommended for the control of certain grasses when tank mixed with Du Pont Classic® Herbicide, Du Pont Pinnacle® Herbicide, "Classic" plus "Pinnacle", or Du Pont Concert® SP Herbicide following the application of a soil applied grass herbicide (preplant incorporated, preplant, or pre-emerge) in Area I as defined on the "Assure" II label.

**HOW TO USE**

"Assure" II at the rate of 5 fluid ounces per acre may be tank mixed with the labeled rates of "Classic", "Pinnacle", "Classic" plus "Pinnacle", or "Concert" SP for the control of volunteer corn, shattercane, seedling johnsongrass, or giant foxtail in the sizes listed below. This treatment combination must be used in a program with a soil applied grass herbicide, and will be active only on the grasses listed below that are emerging following the activation of a soil applied herbicide.

Escaped grasses and volunteer corn should be free of stress and actively growing at the time of the "Assure" II application. Application to grasses that are under stress (herbicide or weather related) or exceed the sizes listed below may not be adequately controlled.

GRASS	HEIGHT SIZE AT APPLICATION
Volunteer corn	6" - 18"
Shattercane	6" - 12"
Seedling johnsongrass	2" - 8"
Giant foxtail	2" - 4" (prior to tillering)

**APPLICATION INFORMATION**

"Assure" II tank mixes may be applied by ground or by air. Use a minimum of 10 gallons of water per acre by ground or a minimum of 5 gallons of water per acre by air.

Applications of "Assure" II tank mixes must include an adjuvant. The following adjuvant types are recommended. For additional information refer to the Du Pont bulletin "Approved Adjuvants for Use With Du Pont Row Crop and Cereal Herbicides" for a list of approved adjuvants and suggested use rates.

Adjuvant rate to use when tank mixing "Assure" II with "Classic", "Classic" plus "Pinnacle", "Pinnacle", or "Concert" SP when applying by ground or by aerial application:

"ASSURE" II plus	Pints per 100 gallons of spray solution			
	Crop Oil Concentrate		Nonionic surfactant	
	Ground	Aerial	Ground	Aerial
"Classic"	8	4	2	2
"Classic" plus "Pinnacle"	*	1-2	1-2	
"Pinnacle"	*	1-2	1-2	
"Concert" SP	*	1-2	1-2	

\*Do not use crop oil concentrate or Dash' when tank mixing "Pinnacle", "Classic" plus "Pinnacle", or "Concert" SP with "Assure" II.

Use a petroleum based crop oil concentrate. Do not use vegetable based (crop origin) crop oil concentrates with "Assure" II.

**NOTE:** Grasses other than the ones listed above, or those listed above that are larger than the sizes indicated may not be adequately controlled by the rates of "Assure" II on this label, and could require the use of higher rates or sequential applications for control. Refer to the "Assure" II label for specific use directions for the control of other grasses or control of these grasses if a soil applied grass herbicide is not used.

**IMPORTANT:**

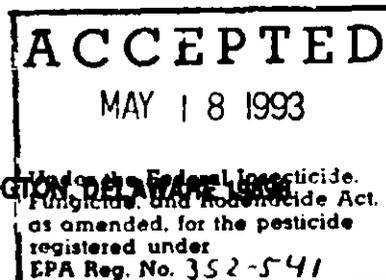

**BEFORE USING "ASSURE" II, "CLASSIC", "PINNACLE", OR "CONCERT" SP, READ AND CAREFULLY OBSERVE THE CAUTIONARY STATEMENTS AND ALL OTHER INFORMATION APPEARING ON THE PRODUCT LABELS. WHEN USING A TANK MIX THE MOST RESTRICTIVE LABELING WILL APPLY.**

This bulletin contains new or supplemental instructions for the use of these products which may not appear on the package label. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.
