CORN**

ACCENT® HERBICIDE

EPA Reg. No. 352-560

TANK MIXES FOR BROADLEAF WEED CONTROL IN FIELD CORN

DIRECTIONS FOR USE

is a violation of federal law to use this product in a manner inconsistent with its labeling.

DuPont ACCENT® Herbicide may be tank mixed with "NorthStar", or with "Beacon" and "Clarity" or "Banvel" herbicides for additional control of the following emerged weeds when applied to field corn grown for grain.

WEED

Velvetleaf	Eastern Black Nightshade
Cocklebur	Smartweed
Lambsquarters	Common Ragweed
Giant Ragweed	Pigweed, redroot Pigweed, smooth

Do not apply to field corn grown for seed, to popcorn or to sweet m.

WHEN TO APPLY

Postemergence applications of ACCENT® tank mixed with "NorthStar" or "Beacon" plus "Clarity/Banvel" should be made to field corn 4" tall or greater but before the corn exhibits 6 collars or is 20" tall, whichever is the more restrictive.

HOW TO USE

Apply ACCENT® plus "NorthStar" for additional annual broadleaf weed control as directed below:

<u>PRODUCT</u>	<u>RATE</u>
ACCENT®	.53-.66 ounces (1 soluble packet per 5 or 4 acres, respectively)
plus	
"NorthStar"	2.5 ounces per acre

Apply ACCENT® plus "Beacon" and "Clarity/Banvel" for additional annual broadleaf control as directed below:

<u>PRODUCT</u>	<u>RATE</u>
ACCENT®	.53-.66 ounces (1 soluble packet per 5 or 4 acres, respectively)
plus	
"Beacon"	.15-.19 ounces (1 soluble packet per 10 or 8 acres respectively)
plus	
"Clarity" or "Banvel"	2 fl. ounces per acre

Use the lower rate of "Beacon" or ACCENT® for smaller weeds (<3") and higher rates for larger weeds (3-4") or heavy weed pressure.

Always add COC at 1% v/v (1 gal./100 gal. spray solution) and an ammonium nitrogen fertilizer such as 28-0-0 (2-4 qts/acre), 10-34-0 (1-2 qts/acre) or spray grade ammonium sulfate (21-0-0) at 2-4 lb/acre. The fertilizer must be added in addition to the crop oil concentrate.

ACCENT® performs best when applied to young, actively growing grasses and weeds at the sizes listed on the label. Use a minimum of 15 gallons of water per acre (15 GPA) for best results.

IMPORTANT PRECAUTIONS

Refer to the ACCENT®, "NorthStar", "Beacon", "Banvel", or "Clarity" labels for additional use directions, restrictions, rotational crop intervals and precautions. The most restrictive provision on either label shall apply.

Do not apply ACCENT® through any type of irrigation system.
