**DuPont Agricultural
Products**

**DPX 79406 75DF HERBICIDE
TANK MIXTURES WITH DICAMBA
FOR ADDITIONAL CONTROL OF
PALMER PIGWEED (AMARANTH)**

"..... A Growing Partnership With Nature"

DPX 79406 75DF HERBICIDE

EPA Reg. No. 352-572

**TANK MIXTURES WITH DICAMBA FOR ADDITIONAL CONTROL
OF PALMER PIGWEED (AMARANTH) IN THE STATES OF
CO, KS AND OK**

DIRECTIONS FOR USE

DuPont DPX-79406 75DF Herbicide may be tank mixed with 2.0-3.0 ounces active per acre of dicamba (e.g. 4.0-6.0 fluid ounces per acre of "Clarity") for additional control of palmer pigweed when applied to field corn. Do not apply to field corn grown for seed, to popcorn or to sweet corn.

WHEN TO APPLY

Postemergence applications of DPX-79406 75DF Herbicide plus dicamba, should be made to corn that is 4-8" tall and is exhibiting fewer than 4 leaf-collars. See the DPX-79406 75DF label for sizes of grasses and other broadleaf weeds controlled.

HOW TO USE

DPX-79406 75DF performs best when applied to young, actively growing grasses and weeds. An activating rainfall (>1/2") is required shortly after application for maximum residual activity. Use a minimum of 15 gallons of water per acre (15 GPA) for best results. Apply 1/2 ounce of DPX-79406 75DF per acre.

SPRAY ADDITIVES

Add an ammonium nitrogen fertilizer such as 28-0-0 (2-4 qts/acre), 10-34-0 (1-2 qts/acre) or spray grade ammonium sulfate (21-0-0) at 2-4 lbs/acre plus methylated seed oil (MSO) at 1% v/v (1 gal/100 gal spray solution).

IMPORTANT PRECAUTIONS

Refer to the DPX-79406 75DF and dicamba labels for additional use directions, restrictions, rotational crop intervals and precautions. The most restrictive provision on either tank mix partner label shall apply. Do not apply DPX-79406 75DF through any type of irrigation system.

IMPORTANT

BEFORE USING THESE PRODUCTS, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABELS.

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label and may contain recommendations which are not appropriate for all geographies and weed control situations.

This bulletin must be in the possession of the user at the time of pesticide application.
