BASIS GOLD HERBICIDE

EPA Reg. No. 352-585

BASIS GOLD HERBICIDE PLUS BANVEL OR CLARITY WITH NONIONIC SURFACTANT FOR WEED CONTROL IN CORN

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DuPont BASIS GOLD Herbicide may be tank mixed with Banvel or Clarity herbicides plus a nonionic surfactant for additional broadleaf weed control in field corn. Do not apply this tankmix to corn grown for seed, to popcorn or sweetcorn.

WHEN TO APPLY

A tank mix of BASIS GOLD plus Banvel or Clarity and non-ionic surfactant (NIS) may be applied postemergence to field corn that is no taller than 8 inches. Apply with drop nozzles only on corn 8 to 12 inches tall.

For a complete list of grasses and weeds controlled by BASIS GOLD and their maximum heights at application, refer to the BASIS GOLD label.

HOW TO USE

Apply BASIS GOLD in a tank mix with the following products for additional broadleaf control :

Product	Rate
Banvel	1/4 - 1/2 pt
Clarity	1/4 - 1/2 pt

A high-quality nonionic surfactant should be added to the tank at the rate of 1-2 qt per 100 gals of spray solution (0.25-0.5% v/v). Use the higher rate under drought conditions. An ammonium nitrogen fertilizer is recommended, especially when green or yellow foxtail is present. Apply 2-4 quarts/acre of an ammonium nitrogen fertilizer such as 28%, 1-2 quarts/acre of 10-34-0 or 2-4 lbs/acre of ammonium sulfate (21-0-0).

More information on adjuvant selection may be found in the bulletin "Approved Adjuvants for use with DuPont Row Crop & Cereal Herbicides".

IMPORTANT PRECAUTIONS

Refer to BASIS GOLD label for mixing instructions.

Refer to BASIS GOLD, Banvel and Clarity labels for additional use directions, use restrictions, rotational crop intervals and precautions. The most restrictive provisions in either label shall apply.

Do not apply BASIS GOLD through any type of irrigation system.

IMPORTANT

BEFORE USING "BASIS GOLD" HERBICIDE IN A TANK MIX WITH BANVEL OR CLARITY AND NONIONIC SURFACTANT, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABELS.

The bulletin contains new or supplemental instructions for use of these products which do not appear on the EPA-registered package labels. Follow these instructions carefully.

This labeling must be in the possession of the user at the time of application.
