STEADFAST™ HERBICIDE

EPA Reg. No. 352-608

TANK MIXTURES WITH DISTINCT HERBICIDE OR CLARITY HERBICIDE AND NON-IONIC SURFACTANT FOR WEED CONTROL IN FIELD CORN

DIRECTIONS FOR USE

DuPont STEADFAST™ Herbicide may be tank mixed with 2 oz of Distinct Herbicide or 4-8 oz Clarity Herbicide for additional control of broadleaf weeds when applied to field corn. Do not apply to field corn grown for seed, to popcorn or to sweet corn.

WHEN TO APPLY

Postemergence applications of STEADFAST™ plus Distinct or Clarity should be made to corn that is 4-12" tall and is exhibiting fewer than 6 leaf-collars. See the STEADFAST™ label for sizes of grasses and other broadleaf weeds controlled.

HOW TO USE

STEADFAST™ performs best when applied to young, actively growing grasses and weeds. An activating rainfall (>1/2") is required shortly after application for maximum STEADFAST™ residual activity. Use a minimum of 15 gallons of water per acre (15 GPA) for best results. Do not apply less than 3/4 ounce of STEADFAST™ per acre. Apply STEADFAST™ plus Distinct or Clarity at the following rates:

Tank Mix Herbicide	Rate	Adjuvant
Distinct	2 oz	NIS + N Fertilizer
Clarity	4-8 oz	NIS + N Fertilizer

SPRAY ADDITIVES

Add an ammonium nitrogen fertilizer such as 28-0-0 (2-4 qts/acre), 10-34-0 (1-2 qts/acre) or spray grade ammonium sulfate (21-0-0) at 2-4 lbs/acre plus non-ionic surfactant (NIS) at 0.25% v/v (1 qt/100 gal spray solution).

IMPORTANT PRECAUTIONS

Refer to the STEADFAST™ and Distinct or Clarity labels for additional use directions, restrictions, rotational crop intervals and precautions. The most restrictive provision on either label shall apply.

Do not apply STEADFAST™ through any type of irrigation system.

IMPORTANT

BEFORE USING THESE PRODUCTS, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABELS.

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label and may contain recommendations which are not appropriate for all geographies and weed control situations. Consult local DuPont fact sheets, technical bulletins, and service policies prior to following the recommendations contained in this label.

This labeling must be in the possession of the user at the time of pesticide application.
