U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:
352-793

Date of Issuance:
SEP 8 2011
Date of Expiration:
SEP 8 2014

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:
Registered with Terms and Conditions

Name of Pesticide Product:
DuPont Imprelis Herbicide

Name and Address of Registrant (include ZIP Code):

E.I. DuPont de Nemours and Company
Stine-Haskell Research Center
P.O. Box 30
Newark, DE 19714

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is registered under 3(c)(5) with the following terms and conditions:

1. This registration will automatically expire three (3) years from the date the amendment is granted, unless DuPont has been informed by EPA in writing that this condition of registration has been amended.
2. DuPont will not sell, distribute, or market DuPont Imprelis Herbicide (EPA Reg. No. 352-793) for sale or use by any other person, except in compliance with an order issued by EPA, or until DuPont has been informed by EPA in writing that this condition of registration has been amended.

Signature of Approving Official:

Date:

SEP 8 2011

Kable Bo Davis, Product Manager (25)
Herbicide Branch, Registration Division (7505P)

3. DuPont will report all previously-unreported adverse-effects related information related to incidents that would otherwise be reportable under 40 C.F.R. § 159.184, resulting from the use of Imprelis Herbicide (EPA Reg. No. 352-793) to the Office of Pesticide Programs (OPP) under the following schedule:
 - For the month of August 2011, provide OPP with a report on or before the 30th day that includes any previously-unreported adverse incidents information reported to or discovered by DuPont on or before August 15th, 2011.
 - For the months of September and October 2011, provide OPP with a report on or before the 15th and 30th days of each month that includes any previously-unreported adverse incidents information reported to or discovered by DuPont on or before the 1st or 15th day of each month, respectively.
 - For the months of November and December 2011, and January 2012, provide OPP with a report on or before the 30th day of each month that includes any previously-unreported adverse incidents information reported to or discovered by DuPont by the 15th day of each month.
 - Any information in Paragraph 3 above to be reported beginning in February 2012, will be provided to OPP with bi-monthly reports submitted on or before the last day of the second month (starting with a report on March 31, 2012), and shall include all previously-unreported adverse incidents information reported to DuPont on or before the 15th day of the month in which the report is to be submitted.

4. DuPont will report all adverse effects-related incident information required to be reported to EPA under Paragraph 3 in a spreadsheet format and address as many of the following data fields as possible for each incident; however, DuPont is only required to provide information in those data fields to the extent that the information is reported to, or otherwise known to, DuPont; this provision does not require DuPont to conduct an investigation to obtain any such information that it does not otherwise possess:
 - Application rate
 - Application area (acres)
 - Application site (turf/noncrop)
 - Application method (ground/aerial)
 - Date of incident (noticed by landholder)
 - Date of incident (reported)
 - Species involved
 - Number of non-target individuals (per species)
 - Phytotoxic response observed (e.g. turned brown over several hours resulting in mortality)
 - Proximity of affected non-target species to application site
 - Affected plants upslope or downslope of application area
 - How many applications prior to incident reporting
 - Whether residues are detected in the soil and the results of such sampling
 - Whether residues are in affected plant tissue
 - Irrigation or rain events and amounts after application
 - If irrigated, whether the water is from a water recovery reservoir/pond

- Whether grass clippings or mulch from treated turf was applied around affected plants prior to observed injury

In the event that after August 30, 2011, DuPont discovers new information that would alter an entry earlier reported to EPA in its spreadsheets, DuPont will provide EPA with updated spreadsheet entries in its next scheduled submission and will clearly mark the changes made.

5. DuPont will not change the source of, or obtain from an alternate supplier, Technical aminocyclopyrachlor for formulation into the Imprelis end-use product without first applying for an amendment to include the alternate source or supplier as an approved source, and not before such amendment has been granted.
6. In accordance with the disposition plan that must be submitted to EPA for approval, DuPont will maintain specific records on the volume of Imprelis product returned, and its location(s) and status when in DuPont's possession. All such records shall be made available to EPA upon request.

If these conditions are not complied with, the registration will be subject to cancellation under FIFRA section 6. If you have any questions regarding this notice, please contact me at (703) 306-0415 or davis.kable@epa.gov.
