Subject: Supplemental Label Amendment – adding soybeans with plenish trait
Product Name: DuPont Finesse Cereal and Fallow Herbicide
EPA Registration Number: 352-827
Application Date: 12-3-15
Decision Number: 500548

Dear Mr. Ambrose:

The supplemental label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. The supplemental label must be incorporated into the master label within 18 months of the date of this notice.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Erik Kraft by phone at 703-308-9358, or via email at Kraft.Erik@epa.gov.

EPA REG. NO. 352-827

ROTATION INTERVAL TO SOYBEANS WITH THE PLENISH® TRAIT

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CROP ROTATION

Minimum Rotation Intervals

Labelled crops may be planted at specified time intervals following application of labelled rates of DuPont™ FINESSE® cereal and fallow herbicide. Soybeans with the PLENISH® trait can be planted 6 months after a labelled application of FINESSE®, where soil pH is 7.9 or lower.

IMPORTANT

BEFORE USING FINESSE® CEREAL AND FALLOW HERBICIDE, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABEL.

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.

NON CEREAL CROPS -- ROTATION INTERVALS-IRRIGATED AND NON-IRRIGATED LAND

State	Crop	Soil pH	Application Rate (oz/A)	Rotation Interval* (months)
All Registered States	Soybeans with the Plenish® Trait†	7.9 or lower	0.2 to 0.5	6

*Rotational intervals are based on normal precipitation/irrigation amounts. If in a water deficit such as a drought, extend rotation intervals until cumulative rainfall/irrigation reaches the normal range. These intervals do not apply to crops grown for seed.

†Under certain conditions (such as drought, prolonged cold weather, pH variability in fields), temporary discoloration and/or crop injury may occur to soybeans with the Plenish® trait planted after FINESSE® applications.

This supplemental label expires on December 31, 2017 and must not be used or distributed after this date.
