

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:
352-862

Date of Issuance:
JAN 30 2014

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:
Unconditional

Name of Pesticide Product:
HGW86 Fly Bait

Name and Address of Registrant (include ZIP Code):

Tim McPherson (S300/420)
E. I. du Pont de Nemours & Company
1007 Market Street
Wilmington, DE 19898

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5). You must:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No 352-862."

Signature of Approving Official:

Date:

01/30/14

Meredith Laws, Chief
Insecticide-Rodenticide Branch, Registration Division (7505P)

3. Per the indicated EPA Guidelines, cite or submit the following data within 18 months measured from the effective date of this registration.
 - a. one year storage stability (830.6317) (measurements at 0, 3, 6, 9, and 12 months)
 - b. corrosion characteristics (830.6320) (measurements at 0, 3, 6, 9, and 12 months)
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A copy of the label stamped "accepted with comments" is enclosed for your records. Please also note that the record for this product currently contains the following Confidential Statements of Formula (CSFs):

- Basic CSF, dated 5/10/2011
- Alternate #1 CSF, dated 5/10/2011

If you have any questions, please contact Tom Harris at 703-308-9423 or harris.thomas@epa.gov.

HGW86

FLY BAIT

Professional Products

GROUP 28 INSECTICIDE

INTENDED FOR USE BY COMMERCIAL APPLICATORS

A ready-to-use granular fly control bait for use in and around residential, commercial and agricultural structures to control house flies.

Active Ingredient *By Weight*

Cytraniliprole	
3-bromo-1-(3-chloro-2-pyridinyl)-N-[4-cyano-2-methyl-6-[(methylamino)carbonyl]phenyl]-1H-pyrazole-5-carboxamide	0.5%

Other Ingredients	99.5%
--------------------------	-------

TOTAL	100.0%
--------------	--------

HGW86 Fly Bait is a ready-to-use granular bait.

EPA Reg. No. 352-862 EPA Establishment No. _____

[Nonrefillable Container] or [Refillable Container]

Net: _____

KEEP OUT OF REACH OF CHILDREN

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

FIRST AID

For questions regarding emergency medical treatment, you may contact 1-800-441-3637 for information.

PRECAUTIONARY STATEMENTS

PERSONAL PROTECTIVE EQUIPMENT

Applicators and other handlers must wear:

Shirt and long pants.

Shoes plus socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

USERS SHOULD: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Runoff may be hazardous to aquatic organisms in water adjacent to use sites.

ACCEPTED
With COMMENTS
In EPA Letter Dated:
JAN 30 2014

Under the Federal Insecticide, Fungicide and Rodenticide Act, As amended, for the pesticide Registered under EPA Reg. No:

352-862

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read and understand the entire label before using this product.

HGW86 must be used in accordance with the directions for use on this label, in separately issued labeling or exemptions under FIFRA (Supplemental Labels, Special Local Need Registrations, FIFRA Section 18 exemptions, FIFRA 2(ee) Bulletins), or as otherwise permitted by FIFRA. Always read the entire label, including the Limitation of Warranty and Liability,

PRODUCT INFORMATION

HGW86 Fly Bait contains the DuPont active ingredient cyantraniliprole in a granular bait formulation for use to control house flies. A fly control program includes identification, inspection, sanitation, mechanical control and control using an insecticide product depending on the conditions and use site. Fly control baits such as HGW86 Fly Bait can be an important tool in the management of fly populations as part of an integrated pest management program.

- Ready to use granular bait contains 0.5% cyantraniliprole
- Controls house flies around the outside of structures and protected or enclosed areas
- Alternative house fly control chemistry for use in IPM and resistance management programs

APPLICATION USE SITES

- Outdoor areas used for storage of waste in refuse dumpsters that are fenced in or inaccessible to children and pets around commercial establishments such as restaurants, taverns, hotels, grocery stores, supermarkets, bakeries, warehouses, and sports complexes.
- Outdoor areas of commercial operations such as but not limited to canneries, beverage processing plants, dairy, meat and poultry processing plants, fruit and vegetable processing plants, seafood processing plants, tanneries, rendering plants, grease collection stations, kennels, schools, recycling plants, and military installations.
- Outdoor areas of agricultural animal production facilities such as poultry/broiler houses, walkways of caged layer houses, swine production structures, livestock housing structures, and horse stables.
- Use in indoor areas at all the above described use sites is permitted only if HGW86 Fly Bait is placed in bait stations, with the exception of walkways within caged layer houses. Refer to Use in Bait Stations section for specific use instructions.

Food/Feed Handling Establishments

(Food/feed handling establishments are places other than private residences in which food/feed is held, processed, prepared or served.)

Specific Restrictions:

- Do not make broadcast applications of HGW86 Fly Bait in indoor areas of residential, institutional, public, agricultural buildings/structures and food/feed handling establishments.

- For indoor areas of residential, institutional, public, agricultural buildings/structures, or food/feed handling establishments, HGW86 Fly Bait must be placed in commercially available bait stations designed for granular fly control baits. Indoor use as a scatter bait is permitted only in caged layer poultry houses.

- Do not apply to areas or surfaces where food/feed, food utensils or food processing surfaces may come into contact and become contaminated.

Applications in Nonfood/Nonfeed Areas: HGW86 Fly Bait is approved for use to control house flies in residential structures and the non-food/non-feed areas of commercial, industrial, public, agricultural and institutional buildings/structures, including restaurants, warehouses, food/feed processing plants, supermarkets, hospitals, nursing homes, motels, hotels, schools, daycares, laboratories, computer facilities, aircraft, buses, boats/ships, trains, pet shops and zoos.

Nonfood/non-feed areas include areas such as garbage rooms, lavatories, floor drains (to sewers), entries, and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after bottling or canning).

Refer to section below for use directions and restrictions when making applications in food/feed handling areas of Food/Feed Handling Establishments.

Applications in Food/Feed Handling Areas: Application to food/feed areas of food/feed handling establishments may only be made using commercially available bait stations designed for use of granular fly control baits.

Food and feed handling areas include areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas are also considered a food/feed area when food is exposed and facility is in operation.

APPLICATION PROCEDURES AND USE RATES

Broadcast:

Broadcast or scatter HGW86 Fly Bait using suitable granular spreader equipment or directly from the container evenly to the target areas. Avoid placing the fly bait granules in piles and scatter as evenly as possible over surfaces.

Apply 0.2 lbs (3.2 oz) of HGW86 Fly Bait per 1,000 ft² when fly populations are low, and use 0.4 lbs (6.4 oz) of bait per 1,000 ft² when populations are high. Reapply bait every 7 days until fly population is at acceptable levels.

Use in Bait Stations:

Use commercially available bait stations that are designed to hold granular baits.

Apply 0.2 lbs (3.2 oz) of HGW86 Fly Bait when fly populations are low using enough bait stations to make the necessary amount of fly bait available per 1,000 ft², and use 0.4 lbs (6.4 oz) of bait in bait stations per 1,000 ft² when populations are high. Replenish bait stations until the fly population is at acceptable levels in the target area.

USE RESTRICTIONS

- Bait stations must be used when using HGW86 Fly Bait inside single or multi-unit residential structures, commer-

cial establishments, food processing plants, restaurants and animal production facilities.

- When bait stations are being used, place them where the stations are inaccessible to children or pets.
- Do not place bait in areas accessible to food producing animals or animals being grown for food.
- Do not place bait in areas accessible to children and pets.
- Do not use in food/feed areas of food/feed handling establishments unless placed in bait stations designed to hold granular baits.
- Not for use in edible product areas of food processing plants or other areas where food is commercially prepared or processed unless placed in bait stations designed to hold granular baits.
- For outdoor broadcast applications, do not apply more than 2 lbs bait/1,000 ft²/year (equivalent to 0.01 lbs ai/1,000 ft²/year or 0.44 lbs ai/Acre/year).
- Do not apply in outdoor areas when raining.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Do not subject to temperatures below 32 degrees F. Store product in original container only in a dry location inaccessible to children and pets. Do not contaminate water, other pesticides, fertilizer, food or feed in storage. Not for use or storage in or around the home.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING:

Refer to the Net Contents section of this product's labeling for the applicable "Nonrefillable Container" or "Refillable Container" designation.

Nonrefillable Rigid Plastic Containers, Paper or Plastic Bags, Fiber Sacks including Flexible Intermediate Bulk Containers (FIBC) or Fiber Drums With Liners: Nonrefillable container. Do not reuse or refill this container. Completely empty plastic container, paper or plastic bag, fiber sack or drum liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application or manufacturing equipment. Then offer for recycling if available or dispose of empty plastic container, paper or plastic bag, fiber sack or fiber drum and liner in a sanitary landfill, or by incineration. Do not burn, unless allowed by state and local ordinances.

Refillable Fiber Drums With Liners: Refillable container (fiber drum only). Refilling Fiber Drum: Refill this fiber drum with HGW86 Fly Bait containing cyantraniliprole only. Do not reuse this fiber drum for any other purpose. Cleaning before refilling is the responsibility of the refiller. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application or manufacturing equipment. Disposing of Fiber Drum and/or Liner: Do not reuse this fiber drum for any other purpose other than refilling (see preceding). Cleaning the container (liner and/or fiber drum) before final disposal is the responsibility of the person disposing of the container. Offer the liner for recycling if available or dispose of liner in a sanitary landfill, or by incineration. Do not burn, unless

allowed by state and local ordinances. If drum is contaminated and cannot be reused, dispose of it in the manner required for its liner. To clean the fiber drum before final disposal, completely empty the fiber drum by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application or manufacturing equipment. Then offer the fiber drum for recycling if available or dispose of in a sanitary landfill, or by incineration. Do not burn, unless allowed by state and local ordinances.

Nonrefillable Rigid Plastic and Metal Containers, e.g., Intermediate Bulk Containers [IBC] (Size or Shape Too Large to be Tipped, Rolled or Turned Upside Down): Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying the contents from this container into application equipment or mix tank and before final disposal using the following pressure rinsing procedure. Insert a lance fitted with a suitable tank cleaning nozzle into the container and ensure that the water spray thoroughly covers the top, bottom and all sides inside the container. The nozzle manufacturer generally provides instructions for the appropriate spray pressure, spray duration and/or spray volume. If the manufacturer's instructions are not available, pressure rinse the container for at least 60 seconds using a minimum pressure of 30 PSI with a minimum rinse volume of 10% of the container volume. Drain, pour or pump rinsate into application equipment or rinsate collection system. Repeat this pressure rinsing procedure two more times. Then, for Plastic Containers, offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration. For Metal Containers, offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

For All Refillable Containers: Refillable container. Refilling Container: Refill this container with HGW86 Fly Bait containing cyantraniliprole only. Do not reuse this container for any other purpose. Cleaning before refilling is the responsibility of the refiller. Prior to refilling, inspect carefully for damage such as cracks, punctures, abrasions, worn out threads and closure devices. If damage is found, do not use container, contact DuPont at the number below for instructions. Check for leaks after refilling and before transporting. If leaks are found, do not reuse or transport container, contact DuPont at the number below for instructions. Disposing of Container: Do not reuse this container for any other purpose other than refilling (see preceding). Cleaning the container before final disposal is the responsibility of the person disposing of the container. To clean the container before final disposal, use the following pressure rinsing procedure. Insert a lance fitted with a suitable tank cleaning nozzle into the container and ensure that the water spray thoroughly covers the top, bottom and all sides inside the container. The nozzle manufacturer generally provides instructions for the appropriate spray pressure, spray duration and/or spray volume. If the manufacturer's instructions are not available, pressure rinse the container for at least 60 seconds using a minimum pressure of 30 PSI with a minimum rinse volume of 10% of the container volume. Drain, pour or pump rinsate into application equipment or rinsate collection system. Repeat this pressure rinsing procedure two more times. Then, for Plastic Containers, offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration. Do not burn, unless allowed by state and local ordinances. For Metal Containers, offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

6/6

Do not transport if container is damaged or leaking. If the container is damaged, leaking or obsolete, or in the event of a major spill, fire or other emergency, contact DuPont at 1-800-441-3637, day or night.

LIMITATION OF WARRANTY AND LIABILITY

NOTICE: Read this Limitation of Warranty and Liability Before Buying or Using This Product. If the Terms Are Not Acceptable, Return the Product at Once, Unopened, and the Purchase Price Will Be Refunded.

It is impossible to eliminate all risks associated with the use of this product. Such risks arise from weather conditions, soil factors, off target movement, unconventional farming techniques, presence of other materials, the manner of use or application, or other unknown factors, all of which are beyond the control of DuPont. These risks can cause: ineffectiveness of the product, crop injury, or injury to non-target crops or plants. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW; WHEN YOU BUY OR USE THIS PRODUCT; YOU AGREE TO ACCEPT THESE RISKS.

DuPont warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purpose stated in the Directions for Use, subject to the inherent risks described above, when used in accordance with the Directions for Use under normal conditions.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, DUPONT MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR OF MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, IN NO EVENT SHALL DUPONT OR SELLER BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BUYER'S OR USER'S BARGAINED-FOR EXPECTATION IS CROP PROTECTION. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW; THE EXCLUSIVE REMEDY OF THE USER OR BUYER AND THE EXCLUSIVE LIABILITY OF DUPONT OR SELLER; FOR ANY AND ALL CLAIMS; LOSSES; INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY OR CONTRACT; NEGLIGENCE TORT OR STRICT LIABILITY OR OTHER LEGAL THEORY); RESULTING FROM THE STORAGE; USE OR HANDLING OF THIS PRODUCT; SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT; OR AT THE ELECTION OF DUPONT OR SELLER; THE REPLACEMENT OF THE PRODUCT.

To the extent consistent with applicable law that allows such requirement, DuPont or its Distributor must have prompt notice of any claim so that an immediate inspection of buyer's or user's growing crops can be made. Buyer and all users shall promptly notify DuPont or a DuPont Distributor of any claims, whether based on contract, negligence, strict liability, other tort or otherwise, or be barred from any remedy.

This Limitation of Warranty and Liability may not be amended by any oral or written agreement.
