ACTIVE INGREDIENTS:

Pyrethrins	.5%
*Technical Piperonyl Butoxide	1.5%
Petroleum Distillates	13.2%
INERT INGREDIENTS:	85.0%
Total	100.0%

*Equivalent to 1.2% (butylcarbityl) (o-propylpiperonyl) ether and 0.3% related compounds
 USDA Reg. No. 358-35

Side Panel: Directions: Close doors and windows. Turn off ventilating equipment. Hold dispenser upright; aim a two second burst (for average room) at center of the room, keeping dispenser three feet away from surfaces. Keep room closed for twenty minutes.
 CAUTION: Remove bird cages and fish bowls before spraying. Do not store over 120° F. Do not incinerate or puncture container. Do not apply directly to uncovered food or foodstuffs. Use the product as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Excessive use may cause unpleasant aftertaste. To avoid wasteful over-treatment, follow directions.
