TO ATTACHED COMMENTS

INFORMATION

For protection of fresh wood cuts during the slow process of natural healing. Protects sound wood from destructive decay, fungus and certain insects such as borers, all three of which are constantly active on our trees. HEAL RITE will prevent the loss of precious wood sap and will hasten the process of natural healing. HEAL-RITE is a plastic adhesive dressing that quickly dries to a tough, tight seal. The HEAL RITE dressing will stretch with normal tree growth, protecting the wood with only one application. HEAL RITE may be used at any time of the year and is not affected by rains, snows or hot sun.

GUARANTEE: Effective for purpose claimed

Pine Oil 5%	Thiram 1%	Asphalt 59.0%
<i>Active Ingredients</i>		
Pine Oil		5%
Thiram (Ectametyl) (brand sulfide)		1.0%
Asphalt		59.0%
<i>Inert Ingredients</i>		
Contents 1 pint (16 fl. ozs.)		Total 100.0%

DIRECTIONS

SHADE TREES, FRUIT TREES, EVERGREENS, ORNAMENTALS, SHRUBS & BUSHES and ROSES

Fresh Pruning Cuts -- Use sharp cutting tools, trim away loose bark or wood fibers to make an even surface before painting.

Large Abrasions -- Trim edges, seal around of wind wound and scrape to a smooth level in the direction of main axis of trunk or limb.

Decayed Wood -- First, remove decayed wood to sound edges and surfaces, then paint.

Light Cuts -- Paint with HEAL-RITE wood paint. When a natural wound is not a blemish to a tree, paint external cracks, holes.

Wound Healing -- For a fast seal, use HEAL-RITE wood paint. It will form a protective seal, preventing water entry and other frost damage.

Precautions -- To avoid staining, wear gloves. Keep out of the reach of children.
