

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING.

INFORMATION

Most house spiders cause no real damage. They are annoying because of the webs they spin. Webs become dust laden and dirty. Even after thorough cleaning the webs and strands reappear, adding to the work of house cleaning. **SPIDER-NOT STOPS SPIDERS and STOPS WEB BUILDING.**

Vacuum cleaning is the most effective control for living rooms, kitchens, bed rooms and other living areas.

SPIDER-NOT is designed TO BE USED IN cellars, attics, garages, tool sheds, porches, roof overhangs, eaves and other unfinished areas. **SPIDER-NOT** kills on contact.

By controlling spiders in non-living areas you will greatly reduce new webs and strands throughout the entire house.

DISPOSAL: Do not reuse container. Wrap container and put in trash collection.

GUARANTEE:

Effective for purpose claimed.

DIRECTION

Non-living areas ... spiders, rafters and other natural web areas. Spray around window frames, door frames and other areas where spiders may crawl.

Spray so as to wet the surfaces thoroughly. Use as a spot treatment. Repeat applications as often as necessary for complete control.

CAUTION: Harmful if swallowed. Avoid prolonged breathing of spray mist or repeated contact with skin. Do not apply to humans, pets or birds. Wash hands with warm water and soap after using. Do not spray near fish or aquariums. Do not use in dairy barns or poultry houses. Avoid contamination of feed, foodstuffs or water sources. Do not spray painted walls, upholstery, lamps, rugs, finished wood or other decorative surfaces.

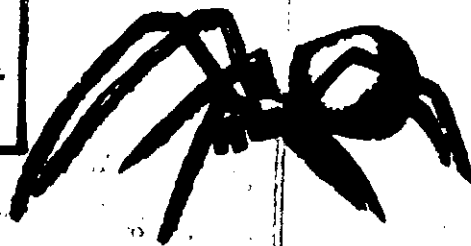

Extremely Flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130 F. may cause bursting.

ACCEPTED

AUG 31 1982
