

Front Panel: Borer-Not
 (18 sq ins) Kills Borers
 (14 pt. & 10 pt.) ...Destroying Dogwood, Lilac, Oak & Maple Trees

CAUTION: Keep Out Of Reach Of Children.
 See Other Cautions On Side Panel. Contents Under Pressure.

Contents: 14 fl. ozs. (11.5 av. ozs)

Side Panel: Borer-Not is a low pressure insecticide designed for spot treatments, in the control of tree borers affecting oak, maple, lilac and dogwood trees. Certain species of borers attack weakened or diseased trees. Control of these borers is vital to the health of the tree.

Direct a short burst of spray into borer holes noticed in the trunk or large branches. Do not saturate. Use a minimum of spray, holding the container close to the tree.

For overall spraying of the entire tree trunk use NOTT'S 20% Lindane Concentrate Borer Spray following the control program as directed.

Side Panel: CAUTION: May be absorbed through skin. Avoid inhalation and skin contact (wash immediately with soap and water). Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Harmful if swallowed. Do not apply to fruit.

Active Ingredients:

Lindane (Gamma Isomer From Benzene..... Hexachloride)	0.05%
Xylene.....	74.95%
Inert Ingredient:	25.00%
total	<u>100.00%</u>

Warning: Contents under pressure. Store away from heat and direct sunlight. Do not puncture or incinerate. Store beyond children's reach. Do not use near open flame or while smoking.
