# dog-check

**INDOORS:**

Apply on small pieces of newspaper or cloth and attach to chair legs, edges of rugs, wall baseboards; or wherever a nuisance has been committed.

Do not spray DOG-CHECK on painted, varnished, lacquered or plastic coated finishes. Avoid skin contact and wash hands with soap and water after use.

**SHAKE WELL BEFORE USING**

The most effective control for a pet is the sharply spoken word backed up with disciplinary action. DOG-CHECK should be used in conjunction with disciplinary training.

**OUTDOORS:**

Apply on the ground around the lower part of the plants or trees affected from the undesirable habits of dogs and cats. Do not spray directly on the branches and if necessary to do so spray very lightly as the material may burn or discolor certain evergreens or other delicate ornamental foliage. One spraying every week is usually sufficient, but repeat applications should be made as often as necessary, particularly after a rainfall or heavy dew.

**GUARANTEE**

**THE GUARANTEED DOG REPELLENT**

**HOW TO SPRAY:**
