Attention: Mr. H.R. Harkins

Subject: Smoke'em
EPA Registration No. 358-137
Your amended application of May 14, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you make the following changes and submit one (1) copy to us before you ship your product:

1. Since your product no longer has a claim for moles, you need to delete the picture of one on your Front Panel or substitute the picture of a woodchuck or ground squirrel.
2. On your insert, delete the phrase, "Not for mole control in Indiana or North Carolina" since the claim is no longer valid for any state.
3. On your final printed label, insure that your ingredient statement is readable. In the past, the white on red lettering made the ingredient statement practically illegible.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

KWB/jr

Karen Whitby
Product Manager (14)

GROUND SQUIRREL

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For control of woodchucks (open fields, non-crop areas), ground squirrels (rangeland). See enclosed insert for complete DIRECTIONS FOR USE.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals.
WARNING After ignition, cartridge produces toxic gases (such as sulfur dioxide). Fumes may be harmful if inhaled.

STATEMENT OF PRACTICAL TREATMENT If inhaled and person has poisoning symptoms (headache, nausea, dizziness, and weakness), transfer victim to fresh air. Have victim lie down and keep warm. If respiration is adequate, recovery will be rapid. If breathing has stopped, use artificial respiration. If available, pure oxygen should be given. CALL A PHYSICIAN IMMEDIATELY.

ENVIRONMENTAL HAZARDS Gases produced by this product are highly toxic to wildlife. Check all burrows for signs of nontargets. If present, do not treat burrows. See enclosed "Endangered Species Considerations" insert.

CHEMICAL HAZARDS Once ignited by the fuse, this cartridge will burn vigorously until completely spent and is capable of causing severe burns to exposed skin and clothes, and of igniting dry grass, leaves and other combustible materials.

STORAGE AND DISPOSAL Do not contaminate water, food or feed by storage or disposal. Storage: Store in cool, dry place away from fire, heat and direct sunlight.
Pesticide Disposal: To dispose of unused cartridge, soak in water, crush and bury at least 6" in loose soil. Container Disposal: Place in trash collection.

COMPLETE PRECAUTIONARY STATEMENT AND USE DIRECTIONS

Hazards to Humans and Domestic Animals
WARNING After ignition, cartridge produces toxic gases (such as sulfur dioxide). Fumes may be harmful if inhaled.

STATEMENT OF PRACTICAL TREATMENT
 If inhaled and person has poisoning symptoms (headache, nausea, dizziness, and weakness) transfer victim to fresh air. Have victim lie down and keep warm. If respiration is adequate, recovery will be rapid. If breathing has stopped, use artificial respiration. If available, pure oxygen should be given. CALL A PHYSICIAN IMMEDIATELY.

ENVIRONMENTAL HAZARDS
 Gases produced by this product are highly toxic to wildlife. Check all burrows for signs of nontargets. If present, do not treat burrows. See enclosed "Endangered Species Considerations" below.

CHEMICAL HAZARDS
 Once ignited by the fuse, this cartridge will burn vigorously until completely spent and is capable of causing severe burns to exposed skin and clothes and of igniting dry grass, leaves and other combustible materials.

DIRECTIONS FOR USE
 It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
 For control of woodchucks (open fields, non-crop areas)

ground squirrels (rangeland).

APPLICATION DIRECTIONS
 First prepare hole for treatment as specified below. Insert fuse into cartridge. Make sure that two inches or more of fuse protrudes from the cartridge before lighting it. Light fuse. Never light the cartridge directly nor hold a burning cartridge in your hand. Work quickly as the minimum fuse burn time is five seconds. Insert fuse end into hole first. Cover cartridge with rock or sod. Only use inside of burrows and never inside of buildings.

Woodchucks (open fields, non-crop areas): Locate all entrances. Select one for use and close all other entrances with rock and dirt. Light fuse, insert fuse-end first. Cover with rock and dirt being careful not to smother the cartridge with dirt. Consult state game laws before using this product for woodchuck control.

Ground Squirrels (rangeland): Collect plenty of dirt and other material for closing burrow openings.

Treat each burrow opening by lighting fuse and inserting cartridge fuse-end first into hole. (Make sure hole is large enough for easy insertion before lighting fuse.) Cover hole immediately, taking care not to smother cartridge with loose dirt. Immediately cover all openings from which gas escapes. Proceed to the next closest open burrow and treat as above.

Endangered Species Considerations

Black-Footed Ferret:
 "Do not use this product in the range of the Black-footed ferret. Contact the nearest U.S. Fish and Wildlife Service Office (Endangered Species Specialist) before the product is used. They will arrange for a survey of the proposed use site."

Utah Prairie Dog:
 In Utah do not use this product in the range of the Utah prairie dog.

San Joaquin Kit Fox:
 "This pesticide should not be used within 1 mile of active dens of the San Joaquin kit fox in the following California counties: Kern, Kings, Fresno, San Luis Obispo, Merced, Monterey, Santa Barbara, Ventura, Tulare, and San Benito. Prior to use contact the California Department of Fish and Game for recommendations."

Blunt-Nosed Leopard Lizard:
 "This pesticide should not be used in the range of the Blunt-nosed leopard lizard in the following California counties: Kern, Fresno, Kings, Madera, Merced, and Tulare. Prior to use, contact the California Department of Fish and Game for recommendations."

Eastern Indigo Snake:
 "Do not use this product in the range of the Eastern indigo snake in the following states: Mississippi, Alabama, South Carolina, Georgia, and Florida."

Desert Tortoise:
 "This pesticide should not be used in the critical habitat of the Beaver Dam slope population of the Desert tortoise in Utah. This comprises an area extending from the southwest facing slope of the Beaver Dam Mountains, across Highway 91, west along the Arizona border and 10 miles to the Nevada border."

NOT FOR MOLE CONTROL IN INDIANA OR NORTH CAROLINA. FOR HOME USE ONLY IN CALIFORNIA.

Label corrected 5/14/92 to delete Mole, ground warps.
