JUL 28 2010

Subject: Labeling Amendment; Submitted Per PR-Notice 2007-4
NOTT MOLE-NOTS
EPA Registration No. 358-165
Date Submitted: June 18, 2010 (originally submitted as notification)

Dear Mr. Schleifman:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following provisions:

1. Within the ingredient statement, revise "*Inert Ingredient*" to read "*Other Ingredients*".
2. Within the **STORAGE & DISPOSAL** section of the label, revise "**STORAGE**" to read "**PESTICIDE STORAGE**".
3. Within the **STORAGE & DISPOSAL** section of the label, immediately before "*Nonrefillable container. Do not reuse...*" include the header "**CONTAINER DISPOSAL**".
4. It is recommended that a company phone number be included directly under the address.

A stamped copy is enclosed for your records. Please submit one (1) final printed copy for the referenced label, incorporating the above changes, before releasing the product for shipment. If you have any questions regarding this letter, please contact Kable Bo Davis at (703) 306-0415 or davis.kable@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "John Hebert", with a long horizontal line extending to the right.

John Hebert
Product Manager (07)
Insecticide-Rodenticide Branch
Registration Division (7505P)

Enclosure- Stamped Labeling

ACCEPTED
with COMMENTS
In EPA Letter Dated:

JUL 28 2010

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
358-165

PRECAUTIONARY STATEMENTS-HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash hands after use. Avoid contamination of feed or food stuffs. Avoid contact with acids.

FIRST AID

Any person applying zinc phosphide products and experiencing signs and symptoms such as nausea, abdominal pain, tightness in the chest or weakness, should be seen by a physician immediately

If swallowed • Immediately call a poison control center or doctor or transport the person to the nearest hospital.
• DON'T DRINK WATER
• Do not administer anything by mouth or make the person vomit unless advised to do so by a doctor.

If in eyes • Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing • Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-633-8253

ENVIRONMENTAL HAZARDS

This product is toxic to wildlife and fish. Birds and other wildlife feeding on treated bait may be killed. Do not apply bait to be exposed on soil surface. Pick up and properly dispose of all spilled toxic bait. Keep out of lakes, streams, ponds and all aquatic systems. Do not apply where run-off from this product will enter an aquatic system.

EPA Reg. No. 358-165 EPA EST. 358-NY-01 Item #225

MOLE-NOTS
Kills Moles & Gophers

Active Ingredient:
Zinc Phosphide..... 2.0%
Inert Ingredient..... 98.0%
TOTAL 100.00%

CAUTION:
Keep Out of Reach
of Children

See side panel for antidote statement and additional precautionary statements.

Not for sale in NC. Restricted in NH
Not for use as a mole killer in IN and CA
NOTT PRODUCTS, Bohemia, NY 11716
NET WEIGHT 5 OZ.

DIRECTIONS: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use Restrictions. For use against moles and pocket gophers in large golf courses, and other non-crop areas. Do not apply in gardens and areas where food/feed may be contaminated. Only apply the bait underground and by gloved hand. Collect and bury all dead animals found above ground.

Specific directions for moles. The presence of moles may be indicated by a network of surface ridges in the turf, by a series of conical mounds of earth pushed up from deep burrows or by damaged bulbs.

Surface ridges: Prior to treatment, determine which burrows are active according to one of the following two methods: Either press down a small section of the tunnel or remove a one inch section of the tunnel's roof. Mark these sections and recheck in 24 hours. The burrow is considered active if the flattened runway has been raised up or if the roof has been repaired. Only treat active burrows. Carefully punch a hole in the top of active tunnels, drop in a teaspoonful and carefully close the hole with sod or stone. Do not collapse the runway again or allow loose soil to cover the bait. After a few days, check to see if the burrows are still active according to one of the two methods described above. If so, repeat treatment.

Conical Mounds. Remove center plug from the conical mounds with the aid of a long-handled spoon and drop a teaspoonful of MOLE-NOTS into the underground tunnel. Close opening with sod or stone. Do not allow loose dirt to cover bait.

Specific directions for pocket gophers. Burrowing pocket gophers (*Thomomys* spp. and *Geomys* spp.) throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. With a long-handled spoon, carefully remove the plug. Insert a teaspoonful of MOLE-NOTS as far down as possible. Reclose opening, being careful not to cover bait with soil.

STORAGE & DISPOSAL

Do not contaminate water, food and feed by storage or disposal.

STORAGE: Keep product tightly closed in original container. Store the product in dry, cool, and locked cabinet not reachable by children. Store in a dry area not accessible to pets, domestic animals or wildlife. Do not store near material with a strong odor.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide is in violation of Federal Law. If these wastes cannot be disposed of by use according to instructions, contact your State Pesticide Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance. Nonrefillable container. Do not reuse or refill this container. If empty: Offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place used product down any indoor or outdoor drain.
