Way To Control Lawn Weeds

359-461

HOW MANY APPLICATIONS

One application is sufficient to control weeds in most lawns. For best results, apply Weedez to lawns in the spring, summer, and fall. It is most effective when applied to young weeds.

WEEDS AFFECTED

Used on lawns, Weedez controls weeds such as Dandelion, Wintergrass, Plantain, Sheep Sorrel, and St. John's Wort. The selective application of Weedez to lawns will control weeds such as English Docks, Setbacks, and others. The Weedez Bar is most effective when used on young weeds.

WILD ONIONS AND GARLIC

Apply Weedez to lawns in the spring, summer, and fall. It is most effective when applied to young weeds. Wild onions and garlic are resistant to Weedez. For control, use a different herbicide.
