THE **C-4** BRAND

ACCEPTED
OCT 25 1983
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended for the pesticide registration process.
EPA Reg. No. 363-14

IMPORTANT

Black Creosote remains in liquid about 40°F temperatures. Keep from freezing while in storage, otherwise setting occurs. If exposed to temperatures below 40°F, place in warm area for 24 hours or more and shake well. Do not use on wood which is to be painted afterwards as creosote bleeds through most paints. Use Decays-Not Clear Wood Preservative for areas which are to be painted.

BLACK CREOSOTE COAL TAR SOLUTION

**PRESERVES AND LENGTHENS LIFE OF WOOD
BRUSH OR SPRAY APPLICATION**

ACTIVE INGREDIENTS

Coal Tar Distillate	67%

DANGER!

Use with adequate ventilation. Avoid breathing of vapors and contact with the skin. Use protective cream or vaseline and wear goggles when spraying. To eliminate discomfort, wash with soap and water after use and apply vaseline.

If swallowed, do not induce vomiting, but call a physician at once. If product gets into eyes, flush with plenty of cold water and call a physician at once.

Do not reuse empty container. Wash equipment and containers thoroughly with water and detergent and dispose of wastes by burying in non-crop lands away from water supplies. Containers should be disposed of by punching holes in them and burying with wastes.

This product will burn. Do not use, pour, spill, or store near heat or open flame. For outside use only. This product has a strong odor. Do not use where odor may penetrate to cause an odor problem. Do not use inside barns, silos, or other such structures where it may contact food and feed or livestock. Close container after each use.

NOTICE:

This product is offered in good faith, however, the seller is not responsible for damages of any kind caused by careless or improper handling or use.

STORAGE

Combustible Liquid. Store in closed containers in a cool, well ventilated area. Wear protective neoprene rubber gloves, chemical safety goggles and protective clothing before opening and applying. Avoid contact with skin. If product is leaking or has been spilled, use an absorbent or sand and scrape up. Dispose in an approved chemical disposal facility. Do not use or store near heat or open flame. Close container after each use. Not for use or storage in or around the home.

DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Do not reuse empty container. Triple rinse (or equivalent). Puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

ENVIRONMENTAL CAUTIONS

This product is toxic to fish and wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

NOTICE

This product is offered in good faith, however, the seller is not responsible for damages of any kind caused by careless or improper handling or use.

COVERAGE

Approximately 100 square feet per gallon.

BLACK CREOSOTE

Durable Preservative for Wood

Efficient Protection Against

Rot or Decay

and

Wood Borers

Successful Usage of Over 30 Years

DESCRIPTION

Black Creosote is a time-tested liquid wood preserver. Recommended for preservation of all types of exposed, unpainted lumber such as fence posts, shingles, underground sills, sub frames, piers, bridges, boardwalks, etc. Protects against decay, rot and wood borers. For protection against termites, wood should be treated prior to use in construction.

APPLICATION

Lumber to be treated should be dry and seasoned before applying. When applying by brush, two flowing coats of Black Creosote applied at temperatures about 60°F is recommended. Where wood will be in direct contact with the ground, such as fence posts and heavy timbers, the wood should be peeled of bark and immersed in Black Creosote for a period of 12 to 48 hours.

When applying by brush, apply with stiff brush and cover knots, checked places and end of timber thoroughly.

COVERAGE

Approximately 100 square feet per gallon.
