ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SOLUBLE EMULSION, SYNTHETIC AND SEMI- SYNTHETIC CUTTING FLUIDS AND COOLANTS

Grotan should be used at a dilution of 0.15%. For best results, drain and clean the system before adding fresh cutting fluid. Add 0.15% of Grotan to the use dilution (1.2 pints per 100 gallons of diluted cutting fluid). 0.15% of Grotan should be added to the use dilution of the make-up fluid.

For all other uses (Adhesives, drilling additives, joint cements, pigment dispersions and resin emulsions for non-residential use) use levels from 0.1-0.3% based on the total weight of the formulation. Grotan should be added to the latter phase of the manufacturing process. It should not be exposed to temperatures exceeding 125°F (52°C) for prolonged periods of time. Further it is not suitable for systems with a pH below 7. Grotan may also be used to control microbial growth at the air-water interface of paint manufacturing raw material storage tanks. A 1-10% aqueous solution of Grotan may be sprayed over the surface. Care should be taken to avoid removal of this interface in paint production.

NOTE: May cause discoloration. Color stability in systems should be checked before use.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Store in original container.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
