

368-31

368-31

**DIRECTIONS**

Do not remove wax paper. Put out small bags at about 10 foot intervals where rats feed, water, or travel. Bait placements along walls in corners, and in concealed locations where rats can feed unobserved are desirable. Place baits in locations not accessible to children, pets, or domestic animals, or in tamper-proof bait boxes. Collect and destroy all uneaten baits after completion of control program. Red Squill baits are for rat control only.

**CAUTION**

Keep away from children, domestic animals, and food stuffs. Avoid contamination of feed and foodstuffs. Red Squill is a violent emetic to children and domestic animals. This serves to protect them from lethal doses.

**NET WEIGHT 1 OZ.**

A product of

**MASTER LABORATORIES  
BEAVER FALLS, PENNSYLVANIA**

Rats can sense human odors. For best results do no handle and always be sure that sufficient STAR Rat Killer pellets are placed around runways so that all rats may be controlled. If you have many rats, use the \$1.00 size U.S.D.A. Reg. No. 368-31

If you have many rats ask for the \$1.00 size.

Spells Rats Backwards
