SULPH-O-SPRAY

For "Arnold" Garden Hose Sprayer

CAUTION: Keep out of reach of children

DIRECTIONS:

Spray under part of leaf thoroughly. Will act on the control of insects. Insects are controlled by a mild or weak Sulphur spray. Keep in mind that the more caution is exercised the better the results. When temperatures are high

CANADIAN REG. NO. 290 P. P. A. V. 1
GARDEN HOSE SPRAY COMPANY, INC.

Net Weight 1 oz.

For best results and for a more concentrated spraying replace this cartridge must be replaced by a new cartridge when one-third of it has been used.

When cartridges are replaced the old cartridge may be saved and when several pieces have accumulated they may be used by putting enough pieces in the chamber to completely fill it.

When replacing this cartridge when needed, insert an additional piece of cartridge be inserted so that the cartridge is completely full again in the same condition when returned.

Maximum spraying results have been obtained by the use of this cartridge without changing it. Always the cartridge is normally full at all times but remember, maximum efficiency is reached only when the cartridge chamber is not less than two-thirds full.

"ARNOLD" SULPH-O-SPRAY CARTRIDGE

Spraying Instructions

The purpose of this cartridge is to provide a continuous supply of sulphur for the control of insects. It is designed to be used in the "Arnold" Garden Hose Sprayer. The cartridge is inserted in the chamber of the sprayer and is held in place by a spring. The cartridge is used by spraying the plants with the sprayer. The cartridge is replaced when it is one-third full.
