

[373-103]

DIRECTIONS

Flies, Mosquitoes, Flying Moths, Wasps: For best results close all doors and windows before spraying. Spray 1 to 4 seconds for a room of 1000 cubic feet. Spray other size rooms in same proportion. Stand in center of room and spray above you in all directions, then leave room and close door. In 15 minutes doors and windows may be opened. Do not remain in treated areas and ventilate the area after treatment is completed.

Ants and Silverfish: Spray directly on insects and into cracks, crevices and around sinks, stoves and cupboards and all other places where insects may hide. Also spray ant trails and around doors and window sills. Repeat as necessary.

Bedbugs: Spray directly on insects. Take bed apart and thoroughly spray joints, slats, springs, and mattresses, especially under tufts and edge of seams. Spray on and around baseboard, moldings, cracks in floor and wall and underneath loose wallpaper, etc. Repeat as necessary.

NET CONTENTS: 12 oz

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

This cylinder is not refillable. Do not attempt to recharge. When cylinder is exhausted discard in safe place.

Keep out of reach of children. Do not use this product in any room where live fish or other aquatic or cold blooded life is kept.

Avoid spraying directly on fabrics, wallpaper or other surfaces subject to staining.

Thoroughly protect or remove all food or feed prior to treatment.
