ELROY

**WATER REPELLENT
PERMATEX
PRESERVATIVE for WOOD**

**LONG-LASTING
WOOD PRESERVATIVE**

DIRECTIONS

PERMATEX, an air-drying, Pentachlorophenol base preservative kills termites, powder post beetles, fungi. Arrests rot and decay.

For protection against termites treat wood prior to use in construction. Fence posts, poles, foundation timbers and heavy wooden members should be free of bark, dry and well seasoned and immersed in PERMATEX for a period of 12 to 48 hours to be an effective wood preservative, depending on the quality and whether use is to be above or below ground.
