GLOVER'S

FOR DOGS AND CATS

For Sarcoptic and Notoedric Mange: Gently wipe away secretions, scabs, dirt, etc. with a clean soft cloth or absorbent cotton. Cleanses parts with warm water and Glover's Medicated Soap. Dry thoroughly and apply the Ointment directly to the affected parts once daily.

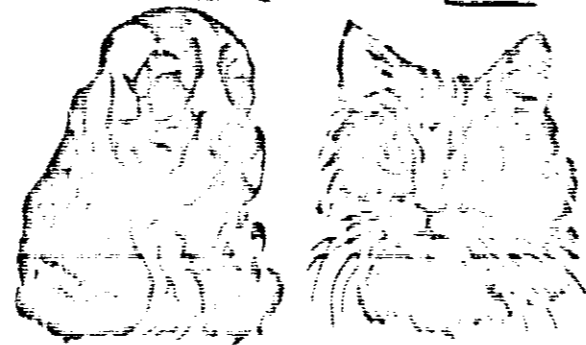

For Mites (Otodectes cynotis): Helpful in eradicating mites and healing conditions associated with mite infestation. This ointment is suitable for applying into the outer ear canal to treat acute inflammatory conditions of bacterial origin or conditions associated with ear mite infestation. Apply small amount of ointment into the canal using finger tip. Gently work into ear canal as well as around areas around ear. Repeat once daily for 7 days.

If suspected mange or mite condition does not improve in 10 days, consult Veterinarian.

ACTIVE INGREDIENTS
 Anhydrous Lanolin USP 37.5%
 Precipitated Sulfur USP 10.0%
 Zinc Oxide USP 2.5%
 Balsam Peru 1.25%
 Salicylic Acid USP 1.0%
