PETTIT YACHT COPPER PAINT

This famous brand of copper paint has been on the market for many years. This paint is manufactured for use on the bottoms of wooden boats for protection against barnacles, teredo worms and other marine growths. Do not use on any type of metal boat bottom.

DIRECTIONS

Stir the copper paint thoroughly and apply two coats, allowing the first coat to dry overnight before applying the second coat. Keep the paint stirred while in use. The bottom to be painted should be as dry as practical. The old paint should be scrubbed or scraped off as thoroughly as possible. On bare wood first apply one coat of PETTIT'S RED LEAD PRIMER.

The boat should be launched within 48 hours after the second coat is applied.

USDA Reg. No. 390-12

DANGER  **POISON**

HARMFUL OR FATAL IF SWALLOWED. COMBUSTIBLE.
CONTAINS COPPER AND PETROLEUM DISTILLATE. DO NOT INDUCE VOMITING. Do not apply on window sills, toys, furniture, or interior surfaces which may be used by children.
