### CAUTION

#### KEEP OUT OF REACH OF CHILDREN

May irritate eyes, nose, throat and skin.  
 Avoid breathing dust or spray mist.  
 Avoid contact with skin, eyes and clothing.  
 Do not contaminate streams or ponds.  
 Except as recommended, do not apply or allow to come in contact with desirable trees or plants, or their roots. Do not use on lawns, walks, driveways or other similar areas.  
 Keep away from fertilizer, lime, acids, and seeds.  
 Clean all application equipment thoroughly and wash after use.  
 Flush tank and pump equipment and accessories repeatedly with plenty of water after use.  
 Do not reuse shipping containers. Destroy by crushing and burying.  
 Do not mix with water or other liquids.

#### DIRECTIONS FOR USE

Use as directed on label.  
 Use adequate amount to give volume and rate of water necessary to cover the area to be treated. Mix thoroughly and suspend in water by stirring. Use immediately. Do not allow to settle. If necessary, if return use is intended, filter through a fine cloth or paper at bottom of tank. For use in tanks, use a pump or sprayer. Do not use if the solution is cloudy or contains sediment.  
 CHEMPAR Diuron 80% WP is a pre-emergent herbicide. It is used to prevent the germination of weeds and grasses. It is applied to the soil surface and acts as a barrier to the roots of weeds and grasses as they grow. It is effective against many common weeds and grasses, including crabgrass, dandelion, and clover. It is also effective against some broadleaf weeds. It is most effective when applied in the fall or early spring. It is safe for use on lawns, golf courses, and other areas where weeds are a problem. It is also safe for use on crops and other plants. It is not toxic to humans, animals, or fish. It is also safe for use on water bodies. It is safe for use on lawns, golf courses, and other areas where weeds are a problem. It is also safe for use on crops and other plants. It is not toxic to humans, animals, or fish. It is also safe for use on water bodies.
