Controls smut and other diseases

UNIROYAL

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
WARNING

May be fatal if absorbed through skin. Causes skin irritation. Harmful if swallowed or inhaled. Do not breathe vapors. Do not get on skin or on clothing. Wash contaminated clothing prior to reuse. When handling or using the concentrate, wear natural rubber gloves. Wash thoroughly with soap and water after handling and before eating or smoking.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands.

Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat and open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

COMPOSITION

ACTIVE INGREDIENT:	
5-Ethoxy-3-trichloromethyl-1,2,4-triazole	46.8%
Inert ingredients	53.2%
TOTAL	100.0%

(Contains 4 lbs. 5-Ethoxy-3-trichloromethyl-1,2,4-triazole per U.S. Gallon at 68°F.)
*U.S. Patents 3,280,588, 3,280,725 and others.

KEEP OUT OF REACH OF CHILDREN
WARNING

STATEMENT OF PRACTICAL TREATMENT

If swallowed, drink promptly a large quantity of water. Do not induce vomiting. Contains petroleum distillates. Call a physician.
If on skin, remove contaminated clothing and wash skin with soap and warm water.
If in eyes, flush with plenty of water for at least 15 minutes.
If inhaled, remove to fresh air.
If patient is unconscious, maintain breathing and rehydrate (i.e., cardiopulmonary resuscitation, if necessary). Contact physician. Poison Control Center, hospital or physician immediately.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

SEE LEFT SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

EPA REG. NO. 400-422
EPA EST. NO.

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

For example, it is a good idea to have a number of "something off" or "out of the box" questions to ask the interviewee and then respond to the story of the interviewee's response. For example, if the interviewee says, "I'm not sure, I'm not sure, I'm not sure," you can respond with, "I'm not sure, I'm not sure, I'm not sure."

[illegible]

For treatment of arthropod bites, 2.5% triacetin ointment is the most effective. It is safe and acts in 15 to 30 minutes and causes no harm to the skin surface under the tape. It is also effective on the face. The treatment also has been shown to be effective on the face. It is also effective on the face. It is also effective on the face.

He said that during meetings during the prior 9 to 11 months, while growing to such (or the opposite, which is the case of parents) (being) allocation was also as to provide the need from growing in contact with the law. If the situation between both POC is a case of a child, it is not with other cases, other children.

[illegible]

• A long-term study with 174 immigrant workers in Holland showed that 17 days between harvests led to a maximum of 15 agricultural AUs at speed 17. Days between harvests of 18 or 19 days led to a maximum of 14 agricultural AUs at speed 17. Agricultural AUs may be made on the day of harvest. Do not apply through irrigation systems where treated water could come into direct contact with the crop (e.g. lettuce).

RECEIVED & RE-TRANSMITTED to various other stations in the Pacific area. After transmission at the rate of 3 lines per second using a 1000 watt transmitter, the received transmission was the same as the original transmission. The received signal was very good and clear and the transmission was very good and clear.

COMPLEMENTAL PLANTS

CONTEMPORARY PLANTS
For recording plants in pastures, use each square as a 500 m² grid. At least 10 squares are required for each 5000 m² area. The number of squares in the grid should be indicated in the top right corner of the grid. The number of squares in which a particular plant species is recorded should be indicated in the bottom right corner of the grid. The number of squares in which a particular plant species is recorded should be indicated in the bottom right corner of the grid.
