Subject: Label Notification(s) for Pesticide Registration Notices 2007-4

Dear Mr. Dupre:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notices (PRN) 2007-4 dated May 30, 2008 for:

EPA Registration 400-466

Diflubenzuron 90% Concentrate

The Registration Division (RD) has conducted a review of this request for applicability under PR Notices 2007-4 and finds that the label changes requested falls within the scope of PR Notices 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-8893.

Sincerely,

A handwritten signature in black ink, appearing to be "Linda Arrington".

Subject RE: Your EPA Notifications

Dear Ms. Williams,

I am replying to your request for information for EPA #400-466 Diflubenzuron 90% Concentrate. Your request for information for the Terrazole products will be sent in a separate reply.

Chemtura is sending you completed Section III of EPA Form 8670-1, and another copy of the label for Diflubenzuron 90% Concentrate. The label is a single page because it is Manufacturing Use Product and does not contain directions for use on crops nor associated statements for handling and applying the product to crops.

Thank you for allowing us to reply by e-mail. Please let me know if you need anything else regarding the Diflubenzuron 90% Concentrate.

Regards,
Judy
