

# HILCO NO. 46

Chlordane Emulsifiable Concentrate

Contains 4 pounds of Technical Chlordane per Gallon

## ACTIVE INGREDIENTS

Technical Chlordane\* .....46.0%  
Petroleum Distillate .....44.0%

## INERT INGREDIENTS

.....10.0%

\*Equivalent to 27.6% Octachloro-4, 7-Methanotetrahydroindane and 18.4% related compounds.

HILCO NO. 46 is especially formulated for use as a spray in water to control certain insects infesting dogs and buildings. The water emulsion can easily be prepared by adding the prescribed volume of HILCO NO. 46 to an amount of water for necessary coverage and thoroughly agitating the mixture to produce a uniform dispersion.

**VETERINARY APPLICATIONS:** For the control of fleas, ticks and sarcoptic mange mites on dogs—add two table-spoons of HILCO NO. 46 to 1½ gallons of water. This solution may be used as a spray or as a dip. HILCO NO. 46 may also be added to the wash water in the amount of 2 tablespoons to 1½ gallons of wash water. Flea infestations require spraying the kennels with a solution of 1 gallon of HILCO NO. 46 to 24 gallons of water. Replace all old bedding after each kennel spraying. Animals should not be treated with HILCO NO. 46 oftener than once a week.

**INTERIOR APPLICATIONS:** For the control of roaches, water bugs and silverfish—apply thoroughly as a spray in water at the rate of 1 quart of HILCO NO. 46 in 5¾ gallons of water. Spray thoroughly on infested cracks and other hiding places. Repeat applications as often as necessary to maintain adequate control.

Do not use in commercial food preparation areas or in edible products areas of food processing plants.

## CAUTION: KEEP OUT OF REACH OF CHILDREN

**FLAMMABLE:** Do not use, pour, spill or store near heat or open flame. Harmful if swallowed. Food utensils such as teaspoons or tablespoons should not be used for food purposes after used with pesticide.

Contact with the skin can cause toxic symptoms. Avoid inhalation and skin contact. In case of contact with skin, wash off immediately with soap and water. Avoid contamination of feed or foodstuffs. (Do not use on dairy animals or in dairy barns.) Do not use on forage crops that are to be fed to dairy animals or animals that are being finished for slaughter.

This product is toxic to fish and wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not re-use empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.
