Attn: John F. Glisson

Subject: Hill #959 Hilco-Solv
EPA Registration No. 402-92
Your Submission of January 7, 1994

Your proposal to amend the formulation of the subject product registration by substituting the disinfectant ingredient Barquat MB (80%), already present in the formulation for a disinfectant ingredient being discontinued, Barquat OJ-50, has completed review. Please note the following.

1. The substitution described above and the corresponding Confidential Statement of Formula (CSF) enclosed with your proposal are acceptable.

2. The labeling enclosed with this submission, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. A stamped copy is enclosed for your records. Please submit five copies of the finished printed labels, incorporating these comments before releasing the product for shipment.

a. In the Ingredient Statement, change the term "Active Ingredients" to the singular.

b. In the Storage and Disposal statement, the heading "Disinfectant Disposal" should be changed to "Pesticide Disposal".
