PHENOL COEFFICIENT (A.O.A.C. Method)

Salmonella Typhosa	9.5
Staphylococcus Aureus	14.8

ACTIVE INGREDIENTS:

Fatty Acid Alkylolamide, Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆) dimethyl benzyl ammonium chloride, Tetrasodium Ethylenediaminetetraacetate, N-Coco (50% C₁₂, 22% C₁₄, 10% C₁₆, 8% C₁₀, 5% C₁₈) dihydroxyethyl amine oxide

100%

INERT INGREDIENTS: 88.450%

Water, Sodium Tripolyphosphate, Nonylphenoxy-polyethoxyethanol, Sodium Hydroxide, Perfume, Sodium Chromate

DIRECTIONS FOR USE

SAN-O-EIGHT cleans, and disinfects floors, walls and other surfaces in one operation. Due to the reduction of bacterial count when SAN-O-EIGHT is used as directed, the hazard of many infectious diseases is also reduced. SAN-O-EIGHT may be used in the mopping operation on all floors. It is also specified for shower rooms, restrooms, lockers, offices and wherever floors and other surfaces are to be cleaned. It is recommended for use in schools, institutions, food processing plants, hospitals, rest homes, clinics, buildings and other places where disinfection is desired.

DIRECTIONS

CLEANING, DISINFECTING, DEODORIZING: Wash or scrub with a solution of 2 oz. SAN-O-EIGHT in each gallon of water. For heavy soil or odor conditions use 4 oz.

DISINFECTING HOSPITAL SURFACES, CRITICAL AREAS AND PREVIOUSLY CLEANED POROUS SURFACES: Wash or scrub with a solution of 4 oz. of SAN-O-EIGHT in each gallon of water.

DISINFECTING: First clean thoroughly with SAN-O-EIGHT using 2 oz. per gallon of water. Double the concentration for heavy soil conditions. Then apply a **DISINFECTING RINSE** using a fresh solution of 2 oz. SAN-O-EIGHT in each gallon of water (1-64 mix).

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Do not contaminate food or feed. Avoid contact with skin and eyes. In case of contact flush with plenty of water. If irritation persists get medical attention.
