Disinfects — Cleanses
OF THE REACH OF CHILDREN
Directions on Side Panel
Registration No. 363-47
Fits U.S. Measure

Sold By
CHEMICAL CORPORATION
PENNSYLVANIA, U.S.A. 19428

WARNING

Harmful if swallowed. Causes skin or eye irritation. In case of contact, flush with plenty of water. For eyes get medical attention! Avoid breathing spray mist. Avoid contamination of feed and foodstuffs.

**PHENOLATED
PINE ODOR DISINFECTANT
COEFFICIENT 5
DEODORANT GERMICIDE**

Soluble in water, forming a milky white emulsion. When mixed with water in recommended dilution, it is a powerful disinfectant against S Typhosa that will not stain surfaces or clothes, and leaves a pleasant fragrant pine odor.

RECOMMENDED

Disinfecting of floors, walls, basements, sick rooms, bathrooms, sinks, cuspidors, garbage receptacles. For use in homes, motels, hotels and schools.
As a deodorant it will be noticeable from one to three hours after use.

DIRECTIONS

Prior to application of solution of disinfectant, gross filth and heavy soil deposits must be removed. The dilution to be used for disinfecting should be 3½ tablespoons of Disinfectant to one gallon of water. Apply solution to surface by wiping, mopping or scrubbing. Solution should remain in contact with surface to be disinfected for at least ten minutes.
As a deodorant and cleanser for washing floors, painted surfaces, tiles, etc., use 3½ tablespoons of Disinfectant to one gallon of water.
Rinse empty container thoroughly with water and discard it.

HY-PINE

COEF. 5

DISINFECTANT

ACTIVE INGREDIENTS: Pine Oil 80%, Vegetable Soap 10% 90%
INERT INGREDIENTS: Water 10%

DIRECTIONS

In making emulsions of HY-PINE Disinfectant always add the water to the disinfectant rather than vice versa. If possible the water should be about 98° F.

For aid as ordinary disinfection against S. Typhosa wash the contaminated area with a solution of 1 to 40.

URINALS AND TOILET ROOM SURFACES — Should be cleaned daily with a solution of ½ pt. disinfectant to 10 qts. of water. When finished pour the solution down drains to thoroughly clean and deodorize them.

PUBLIC PLACES — Spray freely, floors, walls and woodwork with a solution of 1 to 40 so as to cover all possible areas of contamination. For schools, institutions, public buildings.

OUTDOOR RECEPTACLES — Garbage pails: Wash with a 1 to 40 solution.

STABLES — Use a 1 to 40 solution to spray floors, walls and woodwork. Be sure dirt is all removed and then spray entire contaminated area.

CLOSET BOWLS, TOILET BOWLS — Pour 2½ oz. of HY-PINE into the bowl water. Swab entire area of bowl, particularly under rim and at water outlets, as well as drain and bottom. Flush toilet and rinse out mop.

CUSPIDORS — After emptying, clean and disinfect with a 1 to 40 solution. Leave a little in the receptacle to deodorize.

DAIRY FARMS — Spray a solution of 1 to 40 on floors, walls and woodwork.

Note: Be sure all dirt is swept up and removed before applying disinfectant, and that disinfectant solution covers all contaminated surfaces.

FOR CLEANING AND DEODORIZING

CLEANING — Dilute 1 part disinfectant to 100 parts water. Wash floors and use for dedorizing sinks, refrigerators.

DEODORIZER — Add 2 ounces to regular scrubbing solution. For floors, sinks, woodwork. Rinse empty container thoroughly with water and discard it.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with skin, eyes and clothing. For skin and eye contact wash thoroughly with water. If swallowed, do not induce vomiting. Drink milk, egg white, or gelatin solution and immediately get medical attention.

Avoid contamination of feed and foodstuffs. Keep away from domestic animals.
