

**POWERFUL - PLEASANT  
QUICK ACTING**

...the most powerful and pleasant disinfectant and deodorant available. It is effective against a wide range of bacteria, fungi, and viruses. It is also effective against the odoriferous gases which are produced by the decomposition of organic matter. It is particularly useful for the disinfection of hospital floors, walls, and furniture, and for the deodorization of rooms and corridors. It is also useful for the disinfection of surgical instruments and for the deodorization of linens and clothing.

Effective against staphylococci, streptococci, bacilli, fungi, and viruses. It is also effective against the odoriferous gases which are produced by the decomposition of organic matter. It is particularly useful for the disinfection of hospital floors, walls, and furniture, and for the deodorization of rooms and corridors. It is also useful for the disinfection of surgical instruments and for the deodorization of linens and clothing.

Acts instantly and remains effective for long periods. Pleasant odors from fecal matter, urine, body sores, mildew, and mold decay, gastric ulcers, food poisoning, stale air, perspiration, tobacco, sick rooms, and fish.
