

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

San-O-15 is a cleaner, disinfectant and sanitizer, designed for institutional use such as Hospitals, Nursing Homes and institutions where housekeeping will be of prime importance in controlling the hazard of cross-infection on environmental surfaces. San-O-15 can provide the assurance you need in this area, when used as directed. For use on floors, walls, sink tops, garbage pails, telephones, restrooms, bed pans and operating rooms. Effective against Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa. Also effective against pathogenic fungi, Tricophyton interdigitale. When used on hard inanimate surfaces at 2 ounces per gallon of water is effective against (1) Adenovirus type 1, (2) Herpes Simplex virus, (3) Influenza, A2 virus and (4) Vaccinia virus. When used for sanitization of food processing equipment and food contact items, limit active quaternary to 200 ppm (2.8 ounces per 5 gallons). At this level, No Potable Rinse is required.

Use 2 ounces per gallon. This product will be effective against Pseudomonas aeruginosa PRD-10 at this level. This has been substantiated by the AOAC. Use Dilution Confirmation Test. At this level, the product is fungicidal against pathogenic fungi. For best results, use San-O-15 with a cloth or mop and apply to walls, floors and other hard surfaces. No rinsing required. For heavy soil or organic matter, a precleaning step is recommended.
